# Operation Iceland

*By Shaun Almeida*

This is a free publication from the Infowar School created to raise awareness about the New World Order and to provide solutions for ending the New World Order. Please share this book with everyone.

This is the second version of Operation Iceland. This publication is meant to be brief. There is much more information about the problems and solutions presented here that can be found at InfowarSchool.com. It is likely there will be an updated second version.

## **Operation Iceland**

Operation Iceland is the strategy to bring peace and prosperity to the world and to end the New World Order. The operation is named after Iceland in honour of their defeat of the N.W.O. as a result of the 2009 revolution. The revolution was in protest of the bail out of their corrupted banking system from the 2008 financial crisis.

The strategy of Operation Iceland uses a two front resistance against the N.W.O. We will transcend the N.W.O. and incarcerate them at the same time. By presenting effective solutions to the problems created by the N.W.O. we will be able to move forward without them and avoid their fake solutions which are only their goals in disguise. By exposing their crimes we will be able to imprison them. Their total world wide defeat will come as a result of humanity moving forward without them and by imprisoning them.

The first steps are to inform all the people of the world that the N.W.O. is real and a threat to us all and to present the solutions to their problems. As a result of the world becoming aware of the N.W.O. and how to solve our problems it will be easier to elect politicians that are truly representing the people's best interest. Politicians that are part of the N.W.O. will expose themselves by following the N.W.O. plan since their plans will be exposed by Operation Iceland. Leaders who denounce the N.W.O. and implement the solutions will be elected.

After the defeat of the N.W.O. it will be necessary to protect the first and second amendments in America and to keep the populations of the world educated to stop the N.W.O. from rising again. The first amendment is very important because it allows people to tell the truth about criminal activity. If free speech is stopped then the criminals in the government will be able to put people in jail who try to expose them. The second amendment is important because people have the right to protect themselves from criminals and from a government that is out of control. Would you like to be a Jew without a gun during world war two with a government that is trying to kill you? There have been many tyrannical governments throughout the history of our planet and an armed society helps to keep dictators out of power.

## **The Solutions**

The most effective solutions are for the nations of the world to control their own money and energy supplies, and to provide permanent housing for their populations. Having good health, good education and clean food and water are also necessary solutions. These are the solutions that show most clearly that the N.W.O. is lying to us and killing us and these solutions will have the fastest effect in making people aware of the truth.

### The Combined Effect of the Solutions Working Together

The solutions presented in this operation work together and when they are combined they are even stronger. They provide a stable secure foundation for individuals and society. If you have a home that can't be taken away from you and you have money in the bank because your not being taxed unfairly and energy is low cost and you have good healthcare and you have a good education then you will be safe and happy even when you are faced with a disaster. If you get sick or there is a natural disaster or you loose your job for a while you can make it through the problems without loosing everything. In our current situation if you have even a minor problem you can loose everything and our politicians know this and they know why and they know how to fix the problem but they won't because they are trying to build a new world order. There are good politicians but too many of the top positions are held by people that are working for the new world order so they can block the efforts of the good politicians. But don't think that there aren't N.W.O. members at the lower levels of society too. There are. And they are useful to the N.W.O.

### **Solution 1. Take Control of Our Nations Money Supply**

More information on this topic can be found in the financial course at Infowar School.

The most important solution to defeating the N.W.O. is for nations to take back their money supply. This will damage the N.W.O. more than anything else. The people of the nations must demand specifically that their elected politicians withdraw from all activities with world banks and the private central banks in their nations and abolish the Federal Reserve and I.R.S. in America. They must demand that their elected politicians set up citizen owned public national banks to issue the nations money at no interest to fund the governments. Only as much money as needed per yearly budget needs to be created and costs must never be inflated by corrupt politicians. Public accounting will expose the fraud if there is any.

If the N.W.O. was really interested in saving the world they would have paid for it by now. With all the trillions that we paid to them as interest on national debts and the billions of dollars in various bailouts, they could have just bought everyone a home and stabilized the world long ago. If they were truly interested in world peace as they claim they wouldn't be destroying nations with deceptive and corrupt financial practices.

## Steps to an Easy Transition from the N.W.O. Banking System To A National Banking System

Create a publicly owned national bank to issue currency to the nation. Cancel the charter for the private central bank that is currently issuing money to your nation. Each citizen gets an equal amount of the national debt as a credit causing the national debt to be eliminated and the citizens to have some of their stolen money returned to them. For example 85,747 for every American man woman and child which was their share of the national debt at the time of this writing. So a family of four in America would receive 342,988 dollars.

### Eliminate Fractional Reserve Banking Because it is Fraud

Fractional reserve banking allows a bank to lend money it does not have and then you pay back the money plus interest. Usually compounded interest which is the worst type. How would you like to lend someone one million dollars that you don't have and then they have to pay you the one million plus compounded interest? Wouldn't that be nice? That's fractional reserve banking. It's fraud. It makes private banks that belong to the N.W.O. rich and it makes you poor. That's just one very big reason of many that explains why people have so much trouble owning their own home and keeping it. The interest on the mortgage is compounded which makes the debt unaffordable.

### National Banks vs. Private Central Banks

First let's define the difference between the two types of banks. The private central banks that we borrow money from today to pay our governments to work for us are privately owned by people who are part of the new world order. They charge us compounded interest and we don't even know if they are giving us money they actually have or if they are just entering a number into a computer and making us pay for it because we are not allowed to audit them. There is a law that allows them to print money they don't have to supply us with and they call it monetizing the debt. We don't want to use those banks. The only bank that should issue a nations money is the public national bank. It is a bank owned by all the citizens of that nation and there is an audit every year so we will know if anyone is stealing our money. It is also important to know that private central banks are sometimes named 'national bank of America' to trick you into thinking it is not private. The name Federal Reserve is also an attempt to hide the fact that the federal reserve is a private central bank owned by the new world order. So what about the money that is printed every year to pay the government employees? Do we have to pay it back? No we don't.

Every year the government will use the national bank to print enough money to run the country. We do not have to pay the money back to the national bank. Printing this money will not cause inflation or ruin our economy. When we borrow money at compounded interest from private central banks to pay for inflated costs of running our governments then the economy is ruined.

When we create money from our national banks to represent the value of the labour from the citizens, without inflating costs and we don't tax the citizens, then there is a thriving economy and prosperity.

Why don't we have to pay taxes to pay back the money created by the public national bank that was given to the government employees? We didn't borrow the money from the national bank so we don't have to pay it back. The money was newly created. Can you just make money from nothing? We are not making money from nothing.

The value comes from the labour of the civil servants who are working as police and garbage collectors and as other members of the government at all levels. They are providing services to the country with their intellectual and physical labour. All we have to do is keep track of how many hours they worked and print enough new money to pay them. The new money is a recognition or 'credit' for the value they created with their labour. If no money existed in the world do you think people would just stop everything sit in one spot and starve to death? They would work to survive and that's why the value comes from our labour and the money is only a credit for the work we did for other private citizens or the rest of the country if you are working as a civil servant.

This does not mean that we can all go to the national bank and create new money and use it for ourselves without rules. We need to understand what national resources are and we need to understand the difference between private and national use of the national bank.

National resources are resources that belong to a nation. Some examples of resources are things like oil, natural gas, gold, minerals, diamonds, water and citizens physical and intellectual labour.

If you own a piece of land and in that land there is oil and gold and diamonds, those are your private resources. You can dig up the gold and diamonds and use it as money to buy things. You can also exchange your resources with someone for an equal value of bank notes which are legal tender and use the bank notes to buy things. Do you owe the land money for taking gold and diamonds out of it? No, it's your land you own it and you own what's in it. By taking the gold and diamonds from your land you have created new wealth (money). There are resources that a country can use to create wealth in the same way. Because citizens are a national resource they have value that can be used. We will not be using the citizens like oil or gold are used as if they are coins or lubrication for our engines. We will be using the physical and intellectual labour of the citizens and that labour has value just like any other resource. As soon as a citizen does work in the government the money (value) has been created just like when you take the gold or diamonds out of you land the money (value) has been created. So we don't owe anyone anything just because we have a government that is working properly. All we have to do is give the government employees legal tender to represent the exact amount of work that they did. It is the national bank that has the authority to issue the legal tender in the form of bank notes (dollar bills) to the government employees. It wasn't the bank that created the value so we don't owe them anything.

The value came from the civil servants (government employees) labour so we owe them. The money (dollar bills) they get paid each week is just a representation of the value they created each week with their labour.

We do not tax the population to pay the civil servants. This leads to poverty and limitations on the amount of work the government can do. We want the government to do all that is necessary and we don't need to become poor because of it. In fact, we should become richer because of it and that is what will happen if we fund the government with new money and not taxes.

It is not just government employees that can create wealth by doing work in the government. The government can buy goods like garbage trucks and tanks from private citizens and pay the citizens with money created from the national bank and we don't have to pay taxes to repay the national bank. That is how you create prosperity because the citizens will not be losing their wealth by paying taxes to private central banks. Paying taxes for national debt is like paying your employer to work for him. Local and state governments can also create new money from the national bank to run local and state governments using the citizen labour resources. All the civil servants in the country get paid new money.

#### Private Citizens Taking Money from the National Bank

If you don't work in the government the national bank will not give you bank notes (money) just because you did labour for another private citizen. And the national bank will not pay the people that work for you either. If you are a private citizen or private business or private bank you can only borrow money from the national bank and you have to pay back the loan or else the economy will eventually be ruined. ~~Only the national labour resource of the citizens used for operating the nation will create new tax-free money.~~ It is okay to take a loan from the national bank to bring new money into the economy and market place. That increases wealth but you have to pay it back.

#### Solution 2. Energy Supply

With abundant low cost energy the populations of earth will be able to produce housing and food. The N.W.O. is using the lie that Co2 is killing us so that they can restrict our energy use. Co2 will never cause the planet to overheat. It is part of the lifecycle and a benefit to us. The sun is the controlling factor for the earth's climate.

The N.W.O. is using the lie that Co2 will burn up our planet to stop human progress so they can make us easier to take control by turning off our electricity and industries so we will be poor and hungry. Then we have to turn to the governments they control for help. Then they make us accept anything they want for food and welfare.

Stanley Meyer created a fuel system that could convert any type of water into hydrogen and oxygen in huge amounts. He converted a car to run on this fuel system that drove 60 miles per gallon of water with zero Co2 emissions. The oil producing nations offered him one billion dollars in cash for the patent and he said no. the pentagon visited him and investigated his invention. The British sent a scientific delegation to investigate and they said it was the most important invention of the century. Finally in 1998 Stanley Meyer was about to start his mass production of the fuel system when he died suddenly during a dinner meeting with some foreign investors. That technology is not complicated and the theory is known and it is being used today. We can still make that same fuel system today and our governments know it.

Our governments know we don't have to worry about Co2 from cars or production of electricity. But they use the lie to control us. Also there is at least as much oil and gas in Alaska as there is in Saudi Arabia but the U.S. government keeps it classified. There is also cleaner burning coal and clean nuclear energy that is not used. Oil is found all over the world. Every region of earth has its own supply.

The populations must learn about these energy supplies and demand that their elected politicians use them because they are not a threat to the world. They are a benefit.

### Climate Change

The climate is always changing. It's called the four seasons. It gets hot in the summer. There is no need to panic about Co2. The real danger is geoengineering which is what is destroying our climate and our planet and it is the N.W.O. that is using geoengineering. Co2 in the atmosphere does not control the weather. The sun controls the weather. When there is more sun spot activity on the surface of the sun it gets hotter on earth because clouds don't form. When there is less sun spot activity on the surface of the sun more clouds form and it gets cooler. Sun spots are eruptions on the surface of the sun.

There have been periods in earth's history when the temperatures have been hotter than they have ever been since the industrial revolution. For 550 years the Roman warm period (250 BC to AD 400) and for 300 years the Medieval warm period (950 to 1250) the temperatures were hotter than it is today and it wasn't caused by Co2 and there was no global meltdown. The sun was more active during those times. Was there an industrial revolution at that time? No.

Greenhouse gasses work like insulation to keep us warm. Without greenhouse gases we would all freeze to death on earth because we would loose all our heat. You should be happy that we are making Co2 because it keeps us alive as part of the lifecycle with plants and mammals. Water vapour is 95 percent of the greenhouse gas and the other five percent are various gases including Co2. Co2 is 0.04 percent of the earth's atmosphere and 0.013 percent is caused by human emissions. Water vapour is the greatest contributor to the greenhouse affect. The desert gets very cold at night because there is no water vapour to trap the heat and the humid jungle is warm at night because there is water vapour to trap the heat.

If Co2 was so deadly the desert would be hot at night but you can get hypothermia from the cold in the desert night during the winter months when the temperature can drop to below 10 degrees Celsius (50°F) even when the daytime temperatures during those months are still hot. What good is insulation if there is no furnace to create heat? And in our case we have no control over the furnace which is the sun. So what effect does the Co2 actually have on heating? Very little according to the data shown below:

[https://notrickszone.com/2020/06/15/mits-dr-lindzen-pokes-fun-at-thenaive-well-funded-scientific-reasoning-that-1-factor-co2-controlsclimate/MIT's Dr. Lindzen Pokes Fun At The 'Naïve', Well-Funded 'Scientific Reasoning' That 1 Factor – CO2 – Controls Climate](https://notrickszone.com/2020/06/15/mits-dr-lindzen-pokes-fun-at-thenaive-well-funded-scientific-reasoning-that-1-factor-co2-controlsclimate/MITs-Dr.-Lindzen-Pokes-Fun-At-The-‘Naïve’,-Well-Funded-‘Scientific-Reasoning’-That-1-Factor-CO2-Controls-Climate)

Doubling the atmospheric CO2 concentration from 280 ppm to 560 ppm results in just a 1-2% perturbation to the Earth's 240 W/m<sup>2</sup> energy budget. This doubled-CO2 effect has less than 1/5th of the impact that the net cloud effect has. And yet we are asked to accept the "implausible" claim that change in one variable, CO2, is predominately responsible for altering global temperatures.

### Solving the Co2 Problem

There is no reason to worry about Co2 causing global warming or any kind of climate change. We have technology that allows us to use water to produce electricity and power cars. The U.N. and the governments of the world know this but they won't use it. Some governments even tried to buy and suppress the technology but the creator would not sell because he wanted the world to benefit from it. He died during a dinner meeting with some investors and his dying words were 'they poisoned me.' His name was Stanley Meyer. His car could run 60 miles on one gallon of water. Any car could be converted by replacing the spark plugs with the hydrogen injector. That's how simple the conversion from gas to hydrogen is. Any car today could use it and run on a tank of water from the tap, well, sea, lake, ocean, or even melted snow. The water tank and computer are placed in another part of the car. The same technology can be used to produce electricity without Co2. The people in the N.W.O. will never tell you this because they are using the lie of Co2 to stop human production so that the populations of the world will starve and die. There is no over population. With less people on earth they will be able to control the world more easily that's why they do it. That's why they tell us we are over populated. It's all just to help them take over the world.

So you see it doesn't matter if you believe Co2 is killing us or not. We can reduce Co2 emissions anytime we want to by using hydrogen cars that are simple and fast to produce and by using hydrogen from water to produce electricity. And there are other technologies like the sterling engine that can produce power with any kind of heat and there is clean safe nuclear technology that can be used. The quality of living for everyone on earth can rise very quickly and crime will fall because of it and wealth will rise and we will have peace and prosperity world wide if the traitors in our governments that are part of the N.W.O. are stopped. If we made energy cheap and plentiful around the world. We could even burn coal using filters because Co2 is no worry while we convert cars and build new power plants so there is no reason to wait. We can fix it today.

### Geo-Engineering, also known as Climate Engineering

The real danger is geo-engineering that is carried out by the N.W.O. They are spraying thousands of tones of aluminum nano-particles and other metals and chemicals into the atmosphere and it is killing the planet. They are also using H.A.A.R.P. to manipulate the jet stream which causes droughts in some places and floods in others. It is another case of the N.W.O. creating problems and forcing us to accept their solutions. If we don't stop the geo-engineering all species of wildlife will be extinct by 2026 and the aluminums is killing our forests and causing severe intense forest fires because of all the dead trees and the aluminum nano-particles also burn in the fire adding more fuel and heat. Their weather modification is also causing warm currents in the ocean to enter the arctic and melt the ice. The geoengineering is also destroying the ozone layer and allowing dangerous UVC rays to hit the surface of the earth and evaporate the oxygen out of lakes and oceans which cause massive fish die off. There are also devastating effects on farms and livestock. This is all a N.W.O. plan and it needs to be ended.

Here is a documentary that explains the horrific details of the N.W.O. climate change agenda. Click the link to open the page.

<https://www.geoengineeringwatch.org/the-dimming-full-length-climate-engineering-documentary/>

### **Solution 3. Protect the Populations of the Nations with Housing, Food and Healthcare for Everyone**

If everyone had a home that could never be taken away the world would be a much safer place. Becoming homeless is a motivation for crime and corruption. Once the banking systems are taken away from the N.W.O. and taxes drop to almost zero, property taxes will be gone and there will be no reason to loose our homes. With cheap energy and almost no taxes the cost of living will drop. Incomes will increase and people will afford homes easily.

How much space do we need to live? To be able to see what it looks like we can use an example of a well known size of land. Look at Alaska on a map. We can fit the entire population of earth there. This is just an example of size to give you a visual idea compared to the total size of the earth. we could fit the entire world population in that same area if only two people lived in a house that had only one floor and no basement with a backyard if there were ten houses per acre and there would still be space left over. So how is there not enough space on the planet? Over population is a lie told to us by the N.W.O.

663,268 sq mi in Alaska

ac = mi<sup>2</sup> \* 640.00

663268mi<sup>2</sup> x 640 = 424491520 acres

424,491,520 acres x 20 people/acre = 8,489,830,400 people

7,800,000,000 people in the world as of March 2020. All people can fit in an area the size of Alaska. The rest of the world can be used for farming and industries and nature.

### Clean Food and Water

The N.W.O. is poisoning us with GMO and fluoride. People must be informed of the effects of these dangerous substances and demand that their elected politicians stop using them. It's not difficult to do. All we have to do is stop putting poisonous fluoride into our water and stop genetically modifying our food. There's no problem with our food and genetically modifying it causes problems. More information can be found on fluoride and GMO in the Health, Food and Water course at Infowar School.

### Cure Cancer and Other Disease

Our governments know that eating marijuana cures cancer and has numerous other health benefits. They won't allow us to save ourselves by simply growing plants and consuming them. They want us to pay for expensive chemotherapy that kills more people than it saves. Pharmaceutical companies make synthetic versions of medicine found in plants so why not just use the plants? It's because the N.W.O. would not be able to control us if they did not make the plant use illegal. There is more information in the Health, Food and Water course at Infowar School

### COVID-19

COVID-19 is easily stopped by using Budesonide which is asthma medicine. The N.W.O. that created the World Health Organization is not trying to stop this virus. They are using it against us to achieve their goals. Many doctors and nations are already using this medicine with rapid results but you will scarcely hear about it in the controlled media or from the W.H.O. Instead they are using this virus to bring in a technocracy.

Our elected politicians must stop killing us and be put in jail because they know what they are doing. The populations must demand the use of Budesonide and marijuana and all other suppressed cures and the end of GMO and fluoride.

### Covid-19 Treatments

Prevention and treatment are needed to stop people from getting sick and dying. It has been shown that having enough vitamin D with vitamin K2, zinc, quercetin and omega-3 will protect you from getting seriously ill with covid-19 or keep you from even being infected. All three of these things are inexpensive and easy to produce but governments are not using them because there are traitors who are part of the N.W.O. in all the governments of the world. They tell us to stay home and take aspirin to treat covid-19 because there is no other treatment. But there are effective treatments.

### Hydroxychloroquine

There is more than one treatment. Here is the first. Doctors around the world are finding huge success using Hydroxychloroquine with zinc and an antibiotic called azithromycin. They report that patients using this treatment show no symptoms in as little as twelve hours.

The people who are part of the N.W.O. did a dishonest study to try and show that hydroxychloroquine does not work by giving people doses that are too high and using patients that were the most likely to die because they were elderly or had other serious illnesses. The people they did the study with were also very advanced in their infection and near death. Why would anyone put out a dishonest study like that? Because making billions of dollars from vaccine sales is part of the N.W.O. covid-19 program. Dr. Fauci and the NIH funded the creation of a new coronavirus in China at the Wuhan lab where the outbreak likely originated. The lab was trying to find ways to get coronavirus that were only found in animals to transfer to humans and then spread among humans. Scientists have found evidence that covid-19 was genetically modified in a laboratory which means that it is man made and did not happen naturally.

Dr. Fauci and the NIH also have a financial stake in a company that is making vaccines for covid-19 and Fauci and the NIH are part of the people that are trying to stop effective treatments like Hydroxychloroquine which they do not own. Hydroxychloroquine is not patented anymore and anyone can make it so the N.W.O. can't use it to make billions as the kill us.

### Budesonide

Another treatment is asthma medicine called budesonide. Dr. Richard Bartlett who is part of the covid-19 task force used budesonide to treat his patients and all of them survived. Even a woman who had two forms of cancer and received chemo therapy one month earlier was cured with budesonide after she had the virus for almost a week. As you know when someone receives chemo therapy their immune system is weakened so even with a person who is seriously ill budesonide works. It cures them. She was treated on Friday and went back to work Monday because she was cured and tested negative twice. Another woman treated with budesonide by Dr. Bartlett smoked for fifty years, had quadruple bypass surgery, has high blood pressure and thyroid disease. She was treated with budesonide and during the first treatment she could breathe better her fever broke and chest pain went away. She was soon cured and tested negative twice.

In Taiwan and Japan and Singapore they use asthma medicine just like budesonide (a corticosteroid) to cure covid-19. They don't social distance because there is no room there to spread people out. As of August 7, 2020: In Taiwan, population 24 million - 7 dead. In Japan, population 120 million - less than 1000 dead. In Singapore, population 5 million - 12 dead. That's about 1000 dead out of 150 million people.

The best way to take a corticosteroid like budesonide is to use a nebulizer to inhale it so it goes right to the source of the problem. A regular inhaler does not get the medicine deep enough into your lungs but it's better than nothing if that's all you have. It has been available for over 20 years and is safe enough to use on a 2 pound premature baby or fragile elderly people. It is not patented and cheap and plentiful.

NIH is conducting a study on budesonide that won't be finished until October 2020 while Dr. Bartlett and other doctors cure people today. The criteria for the NIH study is to only use budesonide on people that have pneumonia, are in the intensive care unit and are on a ventilator before they test it in their study. The study is set up to fail because they don't want to have any cure except their vaccine. Covid-19 has already mutated 250 times so a vaccine won't work just like the common cold. There is no vaccine possibility. Budesonide and other corticosteroids work on all mutations of the virus.

Animals can be cured with a medicine that is used as a dewormer called ivermectin. Invitro studies show that ivermectin kills the virus 90 percent in 24 hours and 100 percent in 48 hours. There is even evidence now in 2021 that shows ivermectin working in humans to cure covid-19 in 100 percent of the patients that use it. We can eliminate covid-19 forever if we start treating it properly and stop sending people home to take aspirin until their symptoms become life threatening before they are treated.

#### **Solution 4. Education**

Our education systems are being used by the N.W.O. to accomplish a great deal of their work. They are training people from the beginning of their educations to believe the lies of the N.W.O. They are also blocking the truth from being taught to students. To solve this problem we have to remove the UN control of education by removing the UNESCO curriculum.

Control of our education systems is also important because we need to use schools to educate people with truth that will end the N.W.O. and prevent it from ever returning. This will bring peace and prosperity to the entire earth.

#### **UNESCO**

UNESCO means The United Nations Educational, Scientific and Cultural Organization. It is used by the UN to control education, science and cultures of societies around the world.

What they are doing is making people dumb by denying them quality education and training people how to think in a way that will make people all over the world build and accept the N.W.O. Here are two of their statements that show they want people to be dumb:

[Education for sustainable development toolkit:](#)

'Generally, more highly educated people, who have higher incomes, consume more resources than poorly educated people, who tend to have lower incomes. **In this case, more education increases the threat to sustainability.**

The reality is that smart people are better at taking care of the world because they have the knowledge to do it. Dumb people are dependant and controlled by the N.W.O.

[National council of teachers of mathematics. Page 84:](#)

'because the curriculum does not emphasize arithmetic computations done by hand, some CMP students may not do as well on tests assessing computational skills...We believe such a trade-off in favor of CMP is very much to students advantage in...the world of work...'

They use the concept of sustainable development to scare people into doing whatever they say is not sustainable. They lie and say that we will run out of everything but as you can see from the Political Introduction to the New World Order, we have everything we need and we won't run out of resources. They are creating their own disasters to make it look like we are running out of resources.

[International conference on education for a sustainable future sept 2003 prague:](#)

'education for a sustainable future requires a change in approach in the teaching and learning process.'

[International conference on education for a sustainable future, page 4, prague, sept. 10-11 2003.](#)

'The un has declared 2005 - 2015 the decade of education for sustainable development and has designated unesco as the lead agency for its promotion'

goal: 'intergrate sustainable development into all levels of education in order to promote education as a key agent for change'

They use the concept of sustainable development to make people all over the world think that they all have to join the UN global government as 'global citizens' and do whatever the UN wants them to do. Here are their statements where they admit that they use the concept of sustainable development to control the world:

[Unesco.org new role of education, page 1.](#)

'chapter 36 of agenda 21, embraces all ways in which people learn about the world around them, **develop values and lifestyles**...and assume their responsibilities as global citizens to prepare for the future.'

'education is the primary agent of **transformation** towards sustainable development.'

They make people stop caring about facts and train people believe that answers only come from people who the UN considers to be experts. Even if the UN says they have a group of experts that say  $1 + 1 = 5$  you must accept it as true. Now you know why you always hear the there is a consensus about Co2 making the world overheat and you must never question if it is right or wrong. Here are their statements that tell you they don't use facts and they use their own experts to lie and tell you what to believe.

[National council of teachers of mathematics, getting to know connected mathematics Standard 3:](#)

'they learn that mathematics is man made, that it is arbitrary, and good solutions are arrived at by **consensus** among those who are considered expert.'

Wayzata Central Middle School:

'the aim of education is the knowledge not of facts but of values.'

They are more interested in training you to have the values they choose instead of facts about reality.

### **Solution 5. End the United Nations**

The United Nations is the global government of the N.W.O. It is a major piece of their structure that is used to control the world. It must be eliminated. Each nation withdrawing support will cause the UN to end.

If nations want to meet with each other and discuss problems they do not require a world government to do so. Nations have been meeting and signing treaties for thousands of years before the UN.

### **Steps for Ending the N.W.O.**

How do we make the changes to end the N.W.O.? How do you stop any criminal? You need the people with the proper authority to do their job and arrest and prosecute and convict them. But what if there are so many people who are part of the N.W.O. that there are a few in every level of government and those few people are in positions of power and they stop good people from doing what's right? Then we have to get the members of the N.W.O. out of power to allow the good people to be effective. To do this we need to inform the public of the problems and the solutions so the public can identify the bad people and good people. Then we can elect good people to replace the bad people and start arresting the traitors in the governments around the world. That is why the first amendment in the United States is so important. Freedom of speech and freedom of press inform people of corruption.

### **Keys to Stopping the N.W.O.**

1. Inform the world that the N.W.O. is a real active conspiracy, not just a conspiracy theory.
  - a. Use the quotes from the Secret Societies course or the Political Introduction to the New World Order.
2. Show people the harm the N.W.O. are doing to us with examples such as:
  - a. Geoengineering.
  - b. Fluoride in our water.
  - c. Suppressing one of the best and most available cures and prevention for cancer which is hemp oil.
  - d. Suppressing cures for covid-19 such as beudesonide, hydroxychloroquine or ivermectin.
  - e. False flag terror that is killing people.
  - f. GMO food.

3. Inform the world of the solutions to end the N.W.O. found in Operation Iceland.
  - a. How to fund our countries at no cost by funding our governments with a national bank, not a private central bank.
    - i. We can have healthcare for everyone. Even our pets if we want to.
    - ii. We can have all government services without limit such as police, firefighters, garbage collection twice a week or more.
  - b. How to produce clean abundant low cost energy using HHO technology (the water car), the sterling engine, clean nuclear energy.
  - c. Overpopulation is not a problem.
  - d. There is enough food and water for everyone.

#### Dismantle the N.W.O. Infrastructure

1. Stop using the N.W.O. world banks and private central banks.
  - a. They use their ability to print our money to bribe people.
  - b. They force countries to accept fraudulent deals and then take our land when the countries can't pay back their loans.
  - c. They manipulate the stock markets and cause financial crashes.
  - d. They cause us to pay high taxes and we lose fifty percent of our incomes to taxes.
  - e. The N.W.O. will threaten anyone in the government who doesn't go along with their plan with losing their pension and income. If we are financially secure they can't threaten us financially.
2. Free the people that are trapped in the N.W.O. by giving them amnesty and let them expose the leaders of the N.W.O.
  - a. Some people were forced to commit crimes or were tricked into committing crimes. They think they can't get help or they will go to jail. If they are given amnesty they will be able to reveal what they know about the N.W.O. and help us stop their plans.
3. Remove the enforcers of the N.W.O.
  - a. Educate the police and military and everyone else in the government to exactly what the N.W.O. is and what they are doing by teaching them what you learned at the Infowar School and from other info warriors. There will be some of them who are part of the N.W.O. and always will be but most are not or can be freed from the N.W.O. bondage.
4. Election fraud has to be stopped. Expose it and the people who are supporting it.
  - a. Voting for good people will not work if the elections are fraudulent and will always make the N.W.O. members win. It is not easy but we have to expose and stop election fraud. Learning what the American patriots did to expose the fraud during the 2020 presidential election by using audits and legal actions will help you understand how to stop this complicated problem.

### Make Yourself an Effective Info Warrior

1. Know what the N.W.O. is and how it works.
  - a. Learn their tactics such as false flag terror, their technique of problem reaction solution to make us accept their plans and divide and conquer are some examples.
2. Learn the solutions presented in Operation Iceland.
3. Don't call for or use violence or threats. You always have the right to use self defense. The N.W.O. are dangerous so if you find yourself in a dangerous place you should leave before you are attacked.
4. Prepare yourself with survival knowledge and gear.
  - a. Storable food and water filters. Medicine.
  - b. Practice survival methods at home or while camping so you won't make mistakes when the real situation happens.

### Practice Infowar

1. Spiritual infowar is one of the most effective methods.
  - a. Always pray to Jesus. Ask Him to educate the people who are ignorant of the N.W.O. about the harm they cause and the methods they use against us.
2. Learn about the topics of infowar.
  - a. Be gentle and wise. If someone is angry they can't learn or they will be pushed away from truth and become an enemy of truth.
  - b. If you are trying to spread information you have to understand the topics very well or you will probably just confuse people or make them think you are a conspiracy theorist that believes nonsense.
  - c. Even if you don't understand the topics you can still refer people to your sources like documentaries and website which is very effective.
  - d. Expect resistance. Many people are angry or programmed by the N.W.O.
  - e. Many people will attack you with the lies they were programmed to believe because they were taught by the N.W.O. Just keep asking them to explain their reasoning to find out if they can support their arguments with facts. Be aware that facts can be misunderstood or manipulated

Don't expect to get instant results. Sometimes people will realize they have been fooled by the N.W.O. the first time you talk to them. Many times all you can do is tell them about the information and sometimes you can't even get people to listen. A good time to talk to someone is when they need answers. Like when they are upset about why they have to pay so much tax or why the government cancelled some services. Then explain the way to fund a country to them and how the N.W.O. are using private banks to lend us money at compounded interest.
