Level 2 Environment Course

Level 2 Environment Course is still under construction. There is a lot of information presented in documentaries to begin and more written information will be added in the future. There are also links to written information at <https://www.geoengineeringwatch.org/> that covers the same topics found in the videos.

As we have seen in level 1 of the environment course, co2 is not a danger the earth's existence and it is part of the lifecycle. We saw that the N.W.O. has created a problem that does not already exist to make us react and accept their plan of limiting energy use and human productivity. This climate part of their overall plan is designed to help bring in their technocracy which is total control over society. Also remember that we have all the solutions we need to live in peace and prosperity all over earth, but that would stop the N.W.O. from taking over so they oppose those solutions.

Geoengineering Is Used To Create a Global Climate Catastrophe

What is geoengineering? It is a plan to change the weather and it is destroying the earth. Millions of tones of aluminum nano particles are being sprayed into our skies. There are also some other metals mixed into the aluminum but the majority of the spray is aluminum. There is also a program that uses electromagnetic waves that come from special installations all over the world. One famous example of those installations is the HAARP (High-frequency Active Auroral Research Program) location in Alaska. These arrays of antennas send EMF waves that react with the aluminum in the sky to change the path of the jet stream and make some areas hotter and other areas colder or flooded.

This problem caused by the N.W.O. should be very obvious to anyone with any common sense. If the N.W.O. is so concerned with weather killing us, why are they using weather to kill us? The answer is because they want us dead. They want to take over the earth and they are doing that by systematically exterminating humans and setting up a technocratic control grid to control the small amount of humans left over to serve them.

At the current rate of geoengineering all species of wildlife will be extinct by 2026.

These are the effects of the geoengineering. These effects are not caused by human made co2. This is what the N.W.O. are doing to you and your family and your pets by using geoengineering.

1. Killing the plant life and forests.
2. Causing frequent and hyperactive forest fires from all the poisoned dead trees. Also, the aluminum spray burns when it is made into nano sized particles making the fires more severe.
3. Polar ice melting from altered ocean currents.
4. Severe droughts.
5. Severe floods.
6. Severe ice storms.

7. Killing farm animals and crops in mass with drought, and floods and freezing weather.
8. Destroying ozone and allowing dangerous UVC rays from the sun to reach the earth surface and kill plants and living creatures on land. UVC rays cause life to die in the oceans due to lack of oxygen.
9. Causing methane to escape from the arctic and under the sea which can cause temperatures to rise high enough to kill everything on earth.
10. Poisoning people and killing them with aluminum nano-particles that cause neurological disease.
