Introduction

It is true that our planet earth is ruled by Satan and his army of fallen angels. There is clear and undisputable proof of who and what God is and what His reasons and plans are for us. You can find that information at the Infowar School in the appropriate sections. Some people will say that it is not fair to claim one religion is true and the others are false even when presented with overwhelming evidence of that fact. Others may feel that they simply don't have the time to study all the religious aspects of the N.W.O. although it is a much faster process when you are studying religion at the Infowar School. To accommodate those people there is a purely political study of the N.W.O. Also, it is probably easier to start learning about the N.W.O. from a political perspective and then expand into the secret societies and finally religion.

In this political study of the N.W.O. you will learn about how the human race already has everything needed to live in peace and prosperity. You will also learn how the N.W.O. uses lies and creates problems, that would not have existed otherwise, to make us think that a world government is the only solution to their lies and problems. In their world government you will only be allowed to do what they let you do. They will decide if you are even allowed to live. Always remember, we already have all the answers we need to live in peace and prosperity without the N.W.O. They are creating the problems so they can offer their solutions that will help them reach their final goals like when they created a financial crisis to make America accept the Federal Reserve Bank.

More details on all the information presented in this political study of the N.W.O. can be found in the various course topic sections of the Infowar School.

What is the N.W.O.?

The people who are in control of our planet at this time are also called the N.W.O. and their goal is also called the N.W.O. so the terms can be used in both ways. Just like the government. You can call the people working for the country 'the government' and you can call all the laws and institutions of the country 'the government.' The word is used both ways. The N.W.O. is the final goal of the people who are in control of our world. It is a world where they have total control of your life through total surveillance where you will have absolutely no privacy.

There have been people trying to take over the world for the past 6000 years and there has always been a common connection between these people like bloodlines and religious views. Good people always try to stop them so their plans change over time and the current plan for the N.W.O. started in 1588. It's been over 400 years since then and they are near the end of their plan. The N.W.O. is almost complete.

Do they really want a N.W.O.?

The world has been divided into three groups by the people who are in control of our planet (those people in control of the planet are called the N.W.O.). Those groups are: 1. the Jews and the Christians. 2. the Moslems. 3. the communists, socialists and fascists. These three groups are used against each other by the N.W.O. to create wars and other problems that the N.W.O. claim they are the answers to. They create the problems and give us their own solutions that enslave us even more.

These three groups that the world is divided into have leaders that are part of the N.W.O. and there are leaders from all three of these groups calling for a N.W.O. by name. Even the United Nations is calling for a N.W.O. These world leaders want the UN to be the global government that is in control of the N.W.O. They try to hide that fact by using deceptive language like telling us that they want global governance not global government but it's exactly the same thing. They just use different words to describe it. Let's look at their own words calling for the N.W.O.

All of these world leaders claim that the N.W.O. is the answer to all of our problems but they are the same world leaders that are creating our problems by causing wars. Yet they all want the same solution so why are they fighting? It is an obvious and sick plan they are part of and hundreds of millions of innocent people have died because of it. (Another example of how they create problems so that we will react and accept their solutions is something called Operation Northwoods where they planned to fake attacks on America and blame it on Cuba so they could have a reason to invade Cuba.) Here are some statements from the leaders of the world and the UN calling for a N.W.O. and using the problems they created to justify it:

Create Communism To Promote A World Government

From the quotes in the above section it is obvious that people from all three divisions of the world are calling for a N.W.O. In 1588 when the plan for the N.W.O. was created by the people who control our world, the Judeo-Christian and Muslim parts of these three divisions already existed but it wasn't enough for their plan to work. Moslems and Christians (and Catholics and Protestants) have been used to fight each other for hundreds of years and it was not working anymore so another group had to be created by the members of the N.W.O. to use as an enemy of the Muslims and Christians. The new group of people would become the communists and fascists. Now all three groups could be used against each other by having one of them attack the others for new reasons causing new conflicts. These conflicts are used to control the world and direct the solutions towards a N.W.O. We are told that the only solution to end the fighting between the communists and Christians and Muslims is a world government which will be the UN. The communist manifesto even says that they want the united nations to: **'Promote the U.N. as the only hope for mankind. If its charter is rewritten, demand that it be set up as a one-world government with its own independent armed forces.'**

Communism, fascism and socialism are all types of dictatorships and are basically the same but with some minor differences. Communists are like liberals or on the left and fascists are like conservatives or on the right so they are at opposite ends of a system of dictatorship. Both types have government control over the citizens of the country. The government is our servant not our master. Communists and socialists are basically the same with communism just being more extreme or brutal than socialism.

<https://www.britannica.com/topic/communism>

[2020 Encyclopedia Britannica, Inc.](#)

Communism, political and economic doctrine that aims to replace private property and a profit-based economy with public ownership and communal control of at least the major means of production (e.g., mines, mills, and factories) and the natural resources of a society. Communism is thus a form of socialism—a higher and more advanced form, according to its advocates. Exactly how communism differs from socialism has long been a matter of debate, but the distinction rests largely on the communists' adherence to the revolutionary socialism of Karl Marx

Communism Is Not A Grassroots Movement

The members of the N.W.O. would like you to believe that communism is not their creation or else their deception won't work. They would like you to believe that communism is a movement that started from the common citizen who was not satisfied with the conditions they lived in. there is proof that communism is a creation of the N.W.O. On two occasions communists takeovers failed and their leaders were identified and there is also proof from the British intelligence agency Scotland Yard.

1919 In January, Karl Liebknecht and Rosa Luxemburg, are killed as they attempt to lead another Rothschild funded Communist coup, this time in Berlin, Germany.

1919 On July 23rd, Scotland Yard report the following to the American Secretary of State, "There is now definite evidence that Bolshevism is an international movement controlled by Jews; communications are passing between the leaders in America, France, Russia and England, with a view toward concerted action."

Also one of the descendants of the people involved admitted that his grandfather, named Jacob Schiff, helped create communism. Jacob Schiff was a rich banker who lived in America not a poor farmer from Russia.

On February 3rd, Cholly Knickerbocker, reporting in his society news column in the Hearst Press, which appeared in the N.Y. Mao Tse Tung had help in converting China to communism from the people who have been building the N.W.O.

- From the book [The Synagogue Of Satan](#) by Andrew Carrington Hitchcock

On October 1st, Mao Tse Tung declares the founding of the People's Republic of China in Tiananmen Square, Beijing. He is funded by Rothschild, created Communism in Russia and handled by the following Rothschild agents: Solomon Adler, a former United States Treasury official who was a Soviet Spy; Israel Epstein, the son of a Bolshevik imprisoned by the Tsar in Russia for trying to foment a revolution there; and Frank Coe, a leading official of the Rothschild owned IMF

Nathan Rothschild had given Marx two checks for several thousand pounds to finance the cause of Socialism. The checks were put on display in the British Museum, after Lord Lionel Walter Rothschild, a trustee, had willed his museum and library to them.

You will notice a great deal of Rothschild involvement in the N.W.O. because controlling Jerusalem is a vital part of their strategy so they can cause holy war all around the world.

Communism Does Not Have The Citizen's Best Interest In Mind

Communism is just a tool of the N.W.O. and they use it for their own purposes. They tell you all kinds of nice things about how they want to create such a beautiful society but its all lies. The N.W.O. doesn't care about you.

<https://www.nytimes.com/1989/02/04/world/major-soviet-paper-says-20-million-died-as-victims-of-stalin.html>

Major Soviet Paper Says 20 Million Died As Victims of Stalin

Under a headline proclaiming "The Number of Victims of Stalinism Is About 40 Million People," in a terse, question-and answer format, Mr. Medvedev cited the human cost of Stalin's leadership year by year, leaving it to the reader to complete the arithmetic.

Mr. Medvedev's accounting included these victims:

* One million imprisoned or exiled from 1927 to 1929, falsely accused of being saboteurs or members of opposition parties.

* Nine million to 11 million of the more prosperous peasants driven from their lands and another two million to three million arrested or exiled in the early 1930's campaign of forced farm collectivization. Many of these were believed to have been killed.

* Six million to seven million killed in the punitive famine inflicted on peasants in 1932 and 1933.

* One million exiled from Moscow and Leningrad in 1935 for belonging to families of former nobility, merchants, capitalists and officials.

* About one million executed in the "great terror" of 1937-38, and another four million to six million sent to forced labor camps from which most, including Mr. Medvedev's father, did not return.

* Two million to three million sent to camps for violating absurdly strict labor laws imposed in 1940.

* At least 10 million to 12 million "repressed" in World War II, including millions of Soviet-Germans and other ethnic minorities forcibly relocated.

* More than one million arrested on political grounds from 1946 to Stalin's death in 1953.

The Soviet press has left little unsaid about Stalin's shortcomings, probing into sacred myths like his conduct of World War II, likening him to Hitler, dissecting his cruelties period by period. But official historians have shied away from putting a number to it all. Mr. Medvedev acknowledged in *Argumenti i Fakti*, and repeated tonight, that many periods of repression will never be fully measured because records have been lost or never existed.

45 million died in Mao's Great Leap Forward, Hong Kong historian says in new book

At least 45 million people died unnecessary deaths during China's Great Leap Forward from 1958 to 1962, including 2.5 million tortured or summarily killed, according to a new book by a Hong Kong scholar.

The author is Frank Dikotter, chair professor of humanities at the University of Hong Kong and professor of the modern history of China on leave from the School of Oriental and African Studies at the University of London.

The book estimates a death toll nine million higher than the 36 million given in Tombstone, the last major work on the subject published in 2008 by Yang Jisheng, a senior reporter for Xinhua. Most of the material comes from 10 provincial archives chosen on the basis of openness, including those of Gansu , Guangdong, Hebei , Hubei , Hunan , Shandong , Sichuan , Yunnan and Zhejiang .

'The death toll stands at a minimum of 45 million excess deaths ... Coercion, terror and systematic violence were the foundations of the Great Leap Forward.'

'Other victims were deliberately deprived of food and starved to death. Many more vanished because they were too old, weak or sick to work - and hence unable to earn their keep. People were killed selectively because they were rich, because they dragged their feet, because they spoke out or simply because they were not liked, for whatever reason, by the man who wielded the ladle in the canteen.'

He estimated that at least three million died of starvation and disease in gulags - labour and re-education camps set up by local governments - out of the eight to nine million detained in such camps during the Great Leap Forward.

They don't just want to kill you. They also want to take your gold while the leaders live like kings.

- From the book [The Synagogue Of Satan](#) by Andrew Carrington Hitchcock

1918 The real purpose of Communism becomes apparent less than a year after the Bolshevik revolution in Russia, the stealing of the wealth of the people for the benefit of the state, the state which is of course now owned by the Rothschild family. This is highlighted by the following despatch from Petrograd reported in the New York Times on January 30th, "The people's commissaries have decreed a State Monopoly of gold. Churches, museums and other public institutions are required to place their gold articles at the disposal of the State. Gold articles belonging to private persons must be handed over to the State. Informants will receive one-third of the value of the articles."

1971 In their book, None Dare Call It Conspiracy, Gary Allen and Larry Abraham state, "In the reality of socialism you have a tiny oligarchial clique at the top, usually numbering no more than three percent of the total population, controlling the total wealth, total production and the very lives of the other ninety-seven percent. Certainly even the most naive observe that Mr. Brezhnev doesn't live like one of the poor peasants out on the great Russian steppes. But, according to socialist theory, he is supposed to do just that Communism, or more accurately, socialism, is not a movement of the downtrodden masses, but of the economic elite.!"

Make Communism Look Like A Threat To America

Here is proof that one of the reasons communism was created, is to become a threat to the Jewdao-Christian division of the three main groups of in our world. They also use it as a threat to Muslims. The communist manifesto is clearly hostile to America which is a Christian nation. Here are 8 of the 45 goals of the communist manifesto.

1. U.S. acceptance of coexistence as the only alternative to atomic war.
2. U.S. willingness to capitulate in preference to engaging in atomic war.
15. Capture one or both of the political parties in the United States.
16. Use technical decisions of the courts to weaken basic American institutions by claiming their activities violate civil rights.
22. Continue discrediting American culture by degrading all forms of artistic expression. An American Communist cell was told to, "eliminate all good sculpture from parks and buildings, substitute shapeless, awkward and meaningless forms."
42. Create the impression that violence and insurrection are legitimate aspects of the American tradition; that students and special-interest groups should rise up and use, "united force," to solve economic, political or social problems.
34. Eliminate the House Committee on Un-American Activities.
35. Discredit and eventually dismantle the FBI.

Communism Promotes The U.N. As The Only Hope For Mankind.

Creating problems that lead to goals of the N.W.O. is a trick they use all the time. Keeping in mind that they created communism to lead to world government, here are two more goals from the communist manifesto that show how they are using communism to justify their N.W.O. world government of the UN.

11. Promote the U.N. as the only hope for mankind. If its charter is rewritten, demand that it be set up as a one-world government with its own independent armed forces.
45. Repeal the Connally reservation so the United States cannot prevent the World Court from seizing jurisdiction over domestic problems. Give the World Court jurisdiction over nations and individuals alike.

The UN Is A Communist Organization

The communist manifesto and the actions of the United Nations are the same. Here are several of the goals from the manifesto and descriptions of the same UN actions.

Goal 33. Eliminate all laws or procedures which interfere with the operation of the Communist apparatus.

UN: Article 29.3 of the Universal Declaration of Human Rights: 'these rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations.'

Goal 3. Develop the illusion that total disarmament (by) the United States would be a demonstration of moral strength.

UN: THE UNITED STATES PROGRAM FOR GENERAL AND COMPLETE DISARMAMENT IN A PEACEFUL WORLD

The manufacture of armaments would be prohibited except for those of agreed types and quantities to be used by the U.N. Peace Force and those required to maintain internal order. All other armaments would be destroyed or converted to peaceful purposes. page 13

This can only be achieved through the progressive strengthening of international institutions under the United Nations and by creating a United Nations Peace Force to enforce the peace as the disarmament process proceeds. Page 2

Goal 17. Get control of the schools. Use them as transmission belts for socialism and current Communist propaganda. Soften the curriculum. Get control of teachers' associations. Put the party line in textbooks.

Goal 18. Gain control of all student newspapers.

Goal 29. Discredit the American Constitution by calling it inadequate, old-fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis.

UNESCO: We The People: The Citizen and the Constitution, Center for Civic Education. Published 1998:

'As fundamental and lasting as its guarantees have been, the U.S. Bill of Rights is a document of the eighteenth century, reflecting the issues and concerns of the age in which it was written. The rights guaranteed to Americans are civil and political rights. They express a fear of government power.'

UNESCO: We The People: The Citizens And The Constitution Page 216:

'It is within the sovereign authority of the American people to revise or abolish entirely the Bill of Rights'

Goal 30. Discredit the American Founding Fathers. Present them as selfish aristocrats who had no concern for the, "common man."

UNESCO: America Will Be (grade 4 textbook) Houghton Mifflin Company

When Jefferson wrote that 'all men' were created equal he really meant 'all citizens', women and blacks were not included.

Goal 31. Belittle all forms of American culture and discourage the teaching of American history on the ground that it was only a minor part of the, "big picture." Give more emphasis to Russian history since the Communists took over.

UNESCO: We the people the citizens and the constitution.

'The primary purpose of this textbook is not to fill your head with a lot of facts about American history and government.' Page 10

Goal 24. Eliminate all laws governing obscenity by calling them, "censorship," and a violation of free speech and free press Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio, and TV.

Goal 26. Present homosexuality, degeneracy and promiscuity as, “normal, natural, and healthy.”

Goal 40. Discredit the family as an institution. Encourage promiscuity and easy divorce.

The UN Wants Total Control Of Society

The actions of the UN are the same as the definition of communism from the Encyclopedia Britannica. From the statements below you will be able to see that the UN wants total control of society. First note how the definition below from the encyclopedia describes how communism wants total control of society.

<https://www.britannica.com/topic/communism>

2020 Encyclopedia Britannica, Inc.

Communism, political and economic doctrine that aims to replace private property and a profit-based economy with public ownership and communal control of at least the major means of production (e.g., mines, mills, and factories) and the natural resources of a society

The United Nations is not going to just walk into your country and announce that it's the new boss and expect everyone to obey. They have to slowly take over by training people to believe that the UN is the only way to survive. One effective way to do that is to take over the education systems of the world and teach lies to people about how everything is unsustainable. Let's take a look at how they are taking over education in America.

The N.W.O. is using the UN organization called UNESCO for the takeover of education. There is a set of goals the N.W.O. is trying to achieve by the year 2021 which they call Agenda 21. You can think of agenda 21 as the goals of their world takeover in the same way the communists had their goals found in their manifesto. Chapter 36 of Agenda 21 says they want to take over education:

[UNESCO.org new role of education, page 1.](#)

'chapter 36 of agenda 21, embraces all ways in which people learn about the world around them, develop values and lifestyles...and assume their responsibilities as global citizens to prepare for the future.'

'Education is the primary agent of transformation towards sustainable development.'

With agenda 21 being taught in the schools it is possible to train students to become world citizens (also called global citizens, it's the same thing). From the statement below you can see that is happening.

[Education for a sustainable development toolkit - U.S.A., esdtoolkit.org July 2002.](#)

'World citizenship... encompasses the constellation of principles, values, attitudes and behavior that the people of the world must embrace if sustainable development is to be realized.'

Once the students are taught that they are global citizens they are then taught that sustainable development is the responsibility of all global citizens. Sustainable development is the lie that students are taught to make them believe that the only way for the world to survive is to let the government control everything or else we will run out of everything and then we'll all die. From the later sections of this study we know we will always have everything we need.

[Education for a sustainable development toolkit - U.S.A., esdtoolkit.org July 2002.](#)

'From the time sustainable development was first endorsed at the United Nations general assembly in 1987, the parallel concept of education to support sustainable development has also been explored. From 1987 to 1992, the concept of sustainable development matured as committees discussed, negotiated, and wrote the 40 chapters of agenda 21. Initial thoughts concerning ESD were captured in chapter 36 of agenda 21. Promoting education, public awareness and training.'

[UNESCO.org. page 3. new vision of education:](#)

'students will understand that: there is an economic role for government to play in a market economy...governments often...define and protect property rights...most government policies also redistribute income.'

The schools use assessments to measure how well students are being trained to accept sustainable development. They measure the changes in the attitudes and behaviour of the students to see how well their take over of society is progressing:

Michael Chapman presentation at americanheritageresearch.com

[UNESCO.org new vision of education, page 4:](#)

'the effectiveness...must ultimately be measured by the degree to which education for sustainable development changes the attitudes and behaviours of people, both in their individual roles...and in carrying out their collective responsibilities and duties as citizens.'

'Values, attitudes, and interests can be learned/taught.'

'Values, attitudes, and interests can be objectively evaluated.'

[Wayzata Central Middle School:](#) 'the aim of education is the knowledge not of facts but of values.'

Here are some of their statistics that show how many students have already been trained to believe the government is responsible for every aspect of our lives from the economy to private property.

Remember from the previous sections of this study that communism killed 85 million people. There is a way for the world to live in peace and have prosperity. The N.W.O. is not the solution. It is the problem. They are the ones stopping us from having peace and prosperity.

UN Making Global Citizens

What would a global government be without global citizens? The UN will tell you that you're still a citizen of your own country but they want your loyalty to be with the UN. They are using school systems around the world to train students to believe that they are world citizens above all else and that they owe allegiance to the world government. UNESCO is the organization the UN is using for this purpose. UNESCO means: United Nations Education Cultural and Scientific Organization.

The government is the servant of the people not the master so how can you owe allegiance to your servant? You should pledge allegiance to God and if you do pledge allegiance to your country it is not the same as the government. Your country is not your government. Your country is your family, your home, your land, the principles the country was founded on and all the citizens.

What they are training students to do is to be loyal to the world government of the United Nations. Here are three quotes in their own words where they admit to doing these things:

[Michael Chapman presentation at americanheritageresearch.com](#)

[UNESCO.org, reorienting education, page 3.](#)

'Education... prepares students to transform society for the future. ...A curriculum reoriented towards sustainability would place the notion of citizenship among its primary objectives.'

The national curriculum defines citizenship as,

[civiced.org \(glossary of terms 1.05\)](#)

'Status of being a member of a state. One who owes allegiance to the government...'

[Education for a sustainable development toolkit - U.S.A., esdtoolkit.org July 2002.](#)

'World citizenship... encompasses the constellation of principles, values, attitudes and behavior that the people of the world must embrace if sustainable development is to be realized.'

The UN Is Using Our Schools As One Of Their Methods To Take Over Our Countries

By training new generations of children the UN is able to help build the N.W.O. Agenda 21 is an agenda for completing their goals by the year 2021. Chapter 36 of that agenda explains how they are using the school systems to train students to think and behave as world citizens. One of the big parts of agenda 21 is sustainable development which means that anything the UN tells us is not sustainable is not allowed. Another big part of training students to be global citizens is to not teach them about their history and to make them stupid. They admit to it as you can see from their own words:

[Michael Chapman presentation at americanheritageresearch.com](#)

[UNESCO.org new role of education, page 1.](#)

'chapter 36 of agenda 21, embraces all ways in which people learn about the world around them, develop values and lifestyles...and assume their responsibilities as global citizens to prepare for the future.'

'Education is the primary agent of transformation towards sustainable development.'

[International conference on education for a sustainable future, page 4, Prague, September, 10-11 2003.](#)

'The United Nations has declared 2005 - 2015 the decade of education for sustainable development and has designated UNESCO as the lead agency for its promotion'

Goal: 'integrate sustainable development into all levels of education in order to promote education as a key agent for change'

[We the people the citizens and the constitution.](#)

'The primary purpose of this textbook is not to fill your head with a lot of facts about American history and government.' Page 10

In this next quote you can see they admit to making people dumb on purpose. The N.W.O. wants people to be dumb so they can be easily controlled. Sustainability is anything the UN tells us to do.

[Education for sustainable development toolkit:](#)

'Generally, more highly educated people, who have higher incomes, consume more resources than poorly educated people, who tend to have lower incomes. In this case, more education increases the threat to sustainability.'

[The UN Is Taking Away Your Rights](#)

Unalienable means something that cannot be alienated or taken away.

The Declaration of Independence stands in the way of the N.W.O. so it must be removed. The Declaration states:

'We hold these truths to be self evident that all men are created equal and endowed by their Creator with certain unalienable rights...'

The founders of America were not afraid of government or else they would not have founded a government. The founders were afraid of a tyrannical murderous government so they made sure that all citizens would know what their rights are for all time by listing them in the Bill of Rights.

The Bill of Rights is a list of unalienable rights that cannot be taken away from you by anyone or anything. The New World Order cannot include a country that is based on laws and rights that can't be taken away whenever it is convenient. The Bill of Rights must be removed and replaced with the Declaration Of Human Rights that the united nations can change whenever it needs to if they get in the way of building the N.W.O. They do this by teaching students to accept their N.W.O. They admit it in their own words:

[We The People: The Citizens And The Constitution Page 216:](#)

'It is within the sovereign authority of the American people to revise or abolish entirely the Bill of Rights'

[We The People: The Citizen and the Constitution, Center for Civic Education. Published 1998:](#)

'As fundamental and lasting as its guarantees have been, the U.S. Bill of Rights is a document of the eighteenth century, reflecting the issues and concerns of the age in which it was written.'

[Page 249, Article 29.3 of the Universal Declaration of Human Rights:](#)

'these rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations.'

The UN Is Sexualizing Your Children

Making you stupid is not enough. They also want to distract you from finding the truth by creating controversies and corrupting your values. The W.H.O. is sexualizing children in school. Just read their document it speaks for itself. If this doesn't wake you up to the N.W.O. and their evil intentions for all of humanity then you are one of them. Read some of the UN document from the World Health Organization:

Ages 0-4

Information Give information about

- enjoyment and pleasure when touching one's own body, early childhood masturbation
- discovery of own body and own genitals
- the fact that enjoyment of physical closeness is a normal part of everyone's life
- tenderness and physical closeness as an expression of love and affection

Skills Enable children to

- gain an awareness of gender identity
- talk about (un)pleasurable feelings in one's own body
- express own needs, wishes and boundaries, for example in the context of "playing doctor"

Attitudes Help children to develop

- the awareness that relationships are diverse
- a positive attitude towards one's body with all its functions = positive body image
- curiosity regarding own and others' bodies
- an appreciation for the sense of well-being, closeness and trust created by body experience and experience of bonding
- respect for gender equality

Children between the ages of 11-14 were asked to define types of pornography ranging from "soft," "hardcore," and even "transsexual" as part of their assignment.

Included in the insensitive work was female genital mutilation, male circumcision, breast ironing, wet dreams, and trafficking, among other controversial themes.

National File reported on a UK council responsible for a now-defunct online 'sextonary' accessible to students involving a list of extreme fetishes and paraphilias, including "felching" and "c**k and ball torture."

Drag Queen Story Time

Yes it gets worse. Drag queens are teaching your children to twerk and strip in class. Some of them are convicted sex offenders. Here are three news articles describing what is happening in many countries and hundreds if not thousands of schools and libraries.

Now, it turns out that a second Houston Public Library Drag Queen was convicted of multiple sexual assaults against young children, according to records uncovered by Houston MassResistance activists. The man has also written a lurid article describing his work as a transgender prostitute. And he was photographed at a Drag Queen Story Hour (DQSH) event carrying a rubber chicken — a symbol used by homosexuals to indicate a sexual preference for young boys.

According to criminal records uncovered by Houston MassResistance activists, Dees was convicted in 2004 of sex crimes against four young children (ages 4, 5, 6, and 8), was jailed, and is listed as a "high risk sex offender." MassResistance activists have also identified numerous aliases which Dees uses for his various characters and personas.

Dear President Blauvelt,

We write on behalf of members and supporters who live, work, and attend school in Minnesota, some of whom have requested that we contact you to explain why feminists have raised serious concerns and object to the practice of hosting “Drag Queen Story Hour” or other drag-themed events aimed at children in public libraries. As discussed below, we object to drag because it is adult entertainment that is sexist, and exposes children to homophobia and an unhealthy image of lesbian, bisexual, and gay people. And, while we understand the role that libraries play in providing free access to books and information and discussion about contentious issues, we believe that Drag Queen Story Hour events are neither intended nor appropriate venues for discussing those issues. For these reasons we urge the Hennepin County Library Board to adopt a policy prohibiting Drag Queen Story Hour events aimed at minors.

[VIDEO: Stripper Performs in Front of Elementary School Students and Parents](#)
by Lionel Du Cane May 5, 2020

A disturbing video has gone viral on social media as a stripper performs a pole dance in front of elementary school age children and parents.

The video, reportedly from Poland, was poorly received on social media by various accounts voicing their disgust at the event.

In a time where drag queen story hour have taken many schools around the Western world by storm, being subject of much controversy as various shocking scenes have emerged.

Aside from the recent trend involving drag queen story hour, other schools around the world have also welcomed strippers to perform on their grounds for their underage pupils.

Chinese schools invited strippers to perform for kindergarteners. The performance was dubbed “inappropriate” by the equivalent school district.

The N.W.O. Controls Most Of The Media

Controlling the media is one of the first goals of the N.W.O. It is very important to control the media because their plans can be exposed and defeated if the media is independent. That is one of the reasons why the founders of America put the first amendment into the constitution. The founders of America knew about the N.W.O. plan to take over the world. The plan for taking over the media was simple. The N.W.O. bought as much of the media as they could and once they owned most of it they could control what was reported by paying editors to report only what they were told.

Blocking the news is very important because it will expose the plans of the N.W.O. If an editor allowed the wrong news to be reported he would be fired. Blocking the news is not enough for the N.W.O. plan to work. They need to report news that helps them reach their goals. They will also report lots of news on celebrities and sports so that people will be too busy to learn about what the N.W.O. is really doing. They also want to report news that will cause people to fight with each other by claiming everything is racist or homophobic or sexist or religious intolerance. This keeps people fighting each other while the N.W.O. tells us that they have the solutions to stop the fighting. As you know the solutions they offer to the problems they create are really their goals and that is not a good thing.

The following quotes will show how the media is owned and controlled by the N.W.O. and used by them to reach their goals.

#2 The Mainstream Media Gets Things Wrong Very Frequently

Even prominent members of the mainstream media admit that this is the case. For example, during a recent speech at Quinnipiac University CBS anchor Scott Pelley confessed that journalists in the mainstream media “are getting big stories wrong, over and over again”...

“Let me take the first arrow: During our coverage of Newtown, I sat on my set and I reported that Nancy Lanza was a teacher at the school. And that her son had attacked her classroom. It’s a hell of a story, but it was dead wrong. Now, I was the managing editor, I made the decision to go ahead with that and I did, and that’s what I said, and I was absolutely wrong. So let me just take the first arrow here.”

From the book [The Synagogue of Satan](#) by Andrew Carrington Hitchcock

1807

President Thomas Jefferson (the third President of the United States from 1801 - 1809), provides one of the first honest insights into the dishonesty and corruptibility of the media when he states,

“Nothing can now be believed which is seen in a newspaper. Truth itself becomes suspicious by being put into that polluted vehicle. The real extent of this state of misinformation is known only to those who are in situations to confront facts within their knowledge with the lies of the day.”

1880

In America, John Swinton, then the pre-eminent New York journalist, was the guest of honour at a banquet given him by the leaders of his craft. Someone who knew neither the press nor Swinton offered a toast to the independent press. Swinton outraged his colleagues by replying,

“There is no such thing, at this date of the world’s history, in America, as an independent press. You know it and I know it. There is not one of you who dares to write your honest opinions, and if you did, you know beforehand that it would never appear in print. I am paid weekly for keeping my honest opinion out of the paper I am connected with. Others of you are paid similar salaries for similar things, and any of you who would be so foolish as to write honest opinions would be out on the streets looking for another job. If I allowed my honest opinions to appear in one issue of my paper, before twenty-four hours my occupation would be gone. The business of the journalists is to destroy the truth, to lie outright, to pervert, to vilify, to fawn at the feet of mammon, and to sell his country and his race for his daily bread. You know it and I know it, and what folly is this toasting an independent press? We are the tools and vassals of rich men behind the scenes. We are the jumping jacks, they pull the strings and we dance. Our talents, our possibilities and our lives are all the property of other men. We are intellectual prostitutes.”

1917

United States Congressman, Oscar Callaway, informs Congress that J. P. Morgan is a Rothschild front and has taken control of the American media industry. He states,

“In March, 1915, the J.P. Morgan interests, the steel, shipbuilding, and powder interest, and their subsidiary organizations, got together twelve men high up in the newspaper world and employed them to select the most influential newspapers in the United States and sufficient number of them to control generally the policy of the daily press... They found it was only necessary to purchase the control of 25 of the greatest papers...An agreement was reached. The policy of the papers was bought, to be paid for by the month, an editor was furnished for each paper to properly supervise and edit information regarding the questions of preparedness, militarism, financial policies, and other things of national and international nature considered vital to the interests of the purchasers.”

<http://libertytree.ca/quotes/John.Hylan.Quote.7E8E>

March 26 1922

John F. Hylan, former Mayor of New York City, explained:

The real menace of our Republic is the invisible government, which like a giant octopus sprawls its slimy legs over our cities, states and nation . . . The little coterie of powerful international bankers virtually run the United States government for their own selfish purposes. They practically control both parties . . . [and] control the majority of the newspapers and magazines in this country. They use the columns of these papers to club into submission or drive out of office public officials who refuse to do the bidding of the powerful corrupt cliques which compose the invisible government. It operates under cover of a self-created screen [and] seizes our executive officers, legislative bodies, schools, courts, newspapers and every agency created for the public protection.

From the book The Synagogue of Satan by Andrew Carrington Hitchcock

1922

President Theodore Roosevelt who died in 1919 is quoted in the March 27th edition of the New York Times with the following statement, "These International bankers and Rockefeller-Standard Oil interests control the majority of newspapers and the columns of these newspapers to club into submission or drive out of public office officials who refuse to do the bidding of the powerful corrupt cliques which compose the invisible government."

1939

On May 22nd, Anthony Crossley, Conservative MP for Oldham, makes the following statement in the House of Commons in relation to the plight of the Arabs as a result of Jewish persecution of the Arabs, in Palestine, "...There are no Arab members of Parliament. There are no Arab constituents to bring influence to bear upon their members of Parliament. There is no Arab control of newspapers in this country. It is impossible almost to get a pro-Arab letter into the Times.

1967

The treatment of the Palestinians by the Jews, finally ignites enough anger in the Arab world for Egypt, Jordan and Syria to mobilise on Israel's borders. All of these three countries are suddenly attacked by Israel and as a result the Sinai which included Gaza is stolen from Egypt, and the West Bank and the Jordan River stolen from Jordan. As a result of this, on June 8th, the Israelis launch an attack on the U.S.S. Liberty with Israeli aircraft and motor torpedo boats, in an effort to blame it on Egypt, to bring America into the war on their side, and of course follow to the letter, their Mossad motto, "By Way Of Deception, Thou Shalt Do War."

As a result of their attack, 34 American servicemen are killed and 174 wounded. Israel lies as usual, claiming it mistook this warship that was flying a large United States flag, for an ancient out-of-service Egyptian horse carrier El Quseir, that is incidentally 180 feet shorter.

United States Senators and Congressman are warned not to raise this subject for fear of inciting anti-Semitism. The story of course receives no prominence in the Rothschild controlled mainstream media and as usual Israel is in no way even rebuked for their crimes by their subservient country of America.

Disarm The Nations And Make The UN The Most Powerful Force In The World

Here is proof that there are traitors in the United States of America's government that are working to build a world government controlled by the United Nations with the UN as the only super power in the world and with everyone else disarmed so that they can't ever stop the UN. That is the way that the N.W.O. will have control over the world.

In February 24, 1961, there was a study called A World Effectively Controlled by the United Nations Prepared for the Department of State of the U.S.A. that explains what would be necessary for the UN to have total military power over the world. The study states that there is absolutely no question that they are talking about world government and it states there should be disarmament of the nations of the world except for a small amount of basic military weapons to keep the citizens under control. The study also states that the UN would have a large military with nuclear weapons that no nation could challenge.

Six months later in September 1961 DEPARTMENT OF STATE PUBLICATION 7277 Agreed with the study and stated that the would should be disarmed and only the UN should be the greatest power in the world with no other nation able to challenge it.

SUMMARY

A world effectively controlled by the United Nations is one in which "world government" would come about through the establishment of supranational institutions, characterized by mandatory universal membership and some ability to employ physical force. Effective control would thus entail a preponderance of political power in the hands of a supranational organization rather than in individual national units, and would assume the effective operation of a general disarmament agreement. While this supranational organization — the United Nations — would not necessarily be the organization as it now exists, the present UN Charter could theoretically be revised in order to erect such an organization equal to the task envisaged, thereby codifying a radical rearrangement of power in the world.

The principal features of a model system would include the following: (1) powers sufficient to monitor and enforce disarmament, settle disputes, and keep the peace — including taxing powers — with all other powers reserved to the nations; (2) an international force, balanced appropriately among ground, sea, air, and space elements, consisting of 500,000 men, recruited individually, wearing a UN uniform, and controlling a nuclear force composed of 50-100 mixed land-based mobile and undersea-based

missiles, averaging one megaton per weapon; (3) governmental powers distributed among three branches so that primary functions would exist in some recognizable form in a bicameral legislative organ, an executive organ, and an expanded international judicial network; (4) compulsory jurisdiction of the International Court for both legal disputes and legal aspects of political disputes; (5) approximately 130 political subunits, all nominally independent states, within the system; (6) continued jurisdiction over cosmetic affairs by the national governments; and (7) unrestricted international inspection of all states against violation of the disarmament agreement, with permanent (sic) inspection of nuclear research and power equipment, strategic areas and industries, administrative policies and operations, and other key and strategic points in the national economy.

CHAPTER I: INTRODUCTION FRAMEWORK OF STUDY

This paper is part of a larger study of Arms Control and a Stable Military Environment. We sketch out one particular form of a stable military environment — “a world effectively controlled by the United Nations,” that is to say, by supranational institutions instead of primarily by national governments as at present.

...it is world government we are discussing here — inescapable.

DEFINITIONS

Some definitions and boundaries are needed of a “world effectively controlled by the United Nations.” “World” means that the system is global, with no exceptions to its fiat: universal membership. “Effectively controlled” connotes government attributes — a relative monopoly of physical force at the center of the system, and thus a preponderance of political power in the hands of a supranational organization rather than in individual national units. “The United Nations” is not necessarily precisely the organization as it now exists. In theory a radical rearrangement of power in the world could be codified through revision of the existing UN Charter (as in the Clark-Sohn Plan); or a new constitution could be designed. Finally, to avoid endless euphemism and evasive verbiage, the contemplated regime will occasionally be referred to unblushingly as a “world government.”

The manufacture of armaments would be prohibited except for those of agreed types and quantities to be used by the U.N. Peace Force and those required to maintain internal order. All other armaments would be destroyed or converted to peaceful purposes. page 13

This can only be achieved through the progressive strengthening of international institutions under the United Nations and by creating a United Nations Peace Force to enforce the peace as the disarmament process proceeds. Page 2

The United Nations even has an office for world disarmament and they are hiring people to start the process. Here is proof from one of the UN publications from their office of

disarmament and an advertisement from the UN website that they placed to hire staff to disarm the nations.

Banning Guns Does Not Stop Gun Violence. Criminals Don't Turn In Their Guns.

Nations and citizens need the means to defend themselves. If they don't have the ability to defend themselves the N.W.O. will take over the world and citizens will be victims of crime and other deadly attacks. Every person on earth has the right to defend their self by using weapons. Banning guns will not stop gun violence because the criminals will not follow that law and turn in their guns. Having an armed population will stop the criminals because they will not try to attack people or they'll get killed.

'What These Sons of Bitches Want Is Our Freedom!': Bolsonaro Vows To Arm Brazilians To Prevent Dictatorship

"That is why I want...that the people arm themselves. That's going to ensure that a motherfucker is not going to show up and impose a dictatorship here. Because it's easy to impose a dictatorship here. Too easy. A fucking **mayor makes a fucking decree, handcuff people and keep everyone at home.**"

"If they were armed, they'd go to the streets. And if I was a dictator, I'd want to disarm people, just like all the others disarmed people before they impose their respective dictatorship."

"If they were armed, they'd go to the streets. And if I was a dictator, I'd want to disarm people, just like all the others disarmed people before they impose their respective dictatorship."

"I want everyone armed. Because an armed people will never be enslaved," he added.

[Proposed Virginia Law Would Outlaw Krav Maga, Brazilian Jiu Jitsu, Kickboxing, Tai Chi, Firearms Instruction and Self-Defense Training](#)

The law would instantly transform all martial arts instructors into criminal felons. This includes instructors who teach kickboxing, BJJ, Krav Maga, boxing and even Capoeira. It would also criminalize all firearms training classes, including concealed carry classes. It would even criminalize a father teaching his own son how to use a hunting rifle. Specifically, the law says that a person "is guilty of unlawful paramilitary activity" (a class 5 felony) if that person:

"Assembles with one or more persons for the purpose of training with, practicing with, or being instructed in the use of any firearm, explosive, or incendiary device, or technique capable of causing injury or death to persons..."

The phrase "technique capable of causing injury or death to persons" covers all forms of martial arts and self-defense training, including Krav Maga, BJJ, boxing and other contact martial arts such as Tae Kwon Do or Tai Chi.

SENATE BILL NO. 64

Offered January 8, 2020

Prefiled November 21, 2019

A BILL to amend and reenact §18.2-433.2 of the Code of Virginia, relating to paramilitary activities; penalty.

You Can't Rely On The Police To Save You

Have you ever noticed how the police will surround a school where there is someone shooting children and they wait for the person to stop before they go and try to arrest the criminal? Sometimes it is better to take cover when you are facing a criminal with a weapon but when they are walking around a school killing children the police should enter the building immediately and shoot the criminal or die trying. That's their job. However, they are ordered not to enter the schools because having mass shootings is part of the N.W.O. plan to make us accept disarmament which leads to enslavement and finally death.

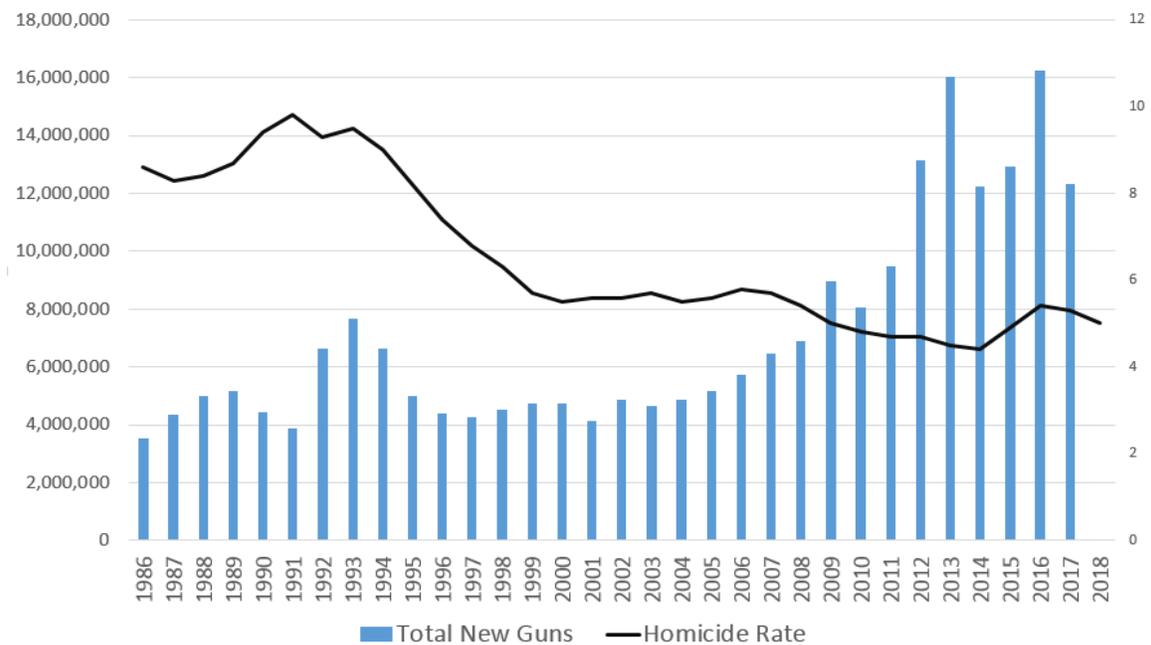

There are even times when the police become criminals and the citizen has to defend themselves. Citizens need their right to bear arms for self defence against criminals and against terrorists and the N.W.O. Here three news articles that shows how the police alone are not enough to protect you.

2019 Was a Bad Year for the "Only Cops Should Have Guns" Narrative

In the spring of 2019, the parents of victims of the Parkland school shooting sued the Broward County school board and the sheriff's office for failing to take timely action against the school shooter who killed seventeen people at the school in February 2018. According to the South Florida Sun-Sentinel, police officers repeatedly sought to protect themselves rather than the victims in the school. An analysis of communications among law enforcement officers at the site of the massacre confirmed there were "at least two times a Broward deputy urges another officer to protect themselves, not confront the killer." Meanwhile, 2019 provided reminders that police officers will shoot citizens dead in their own homes for no justifiable reason, as was the case with Atatiana Jefferson on October 12. According to multiple accounts the shooter — a now former cop named Aaron Dean — entered Jefferson's private property unannounced in the middle of the night. He peered into Jefferson's windows, and within seconds, the officer had shot Jefferson dead. Jefferson had been playing video games with her nephew. Also, in October, former police officer Amber Guyger was sentenced to ten years in prison for unlawfully shooting Botham Jean in his own apartment. At the time, Guyger was a police officer returning home from work. She illegally entered the wrong apartment and promptly shot Jean — the unit's lawful resident — dead. According to 2019's gun manufacturing data from the Bureau of Alcohol, Tobacco, Firearms and Explosives (BATF), total gun production and importation in the US has increased significantly over the past twenty years. If we look at total guns produced in the US (not counting those exported), added to total guns imported, we find that new gun production increased from around 4.5 million in 1998 to more than twelve million in 2017. Over that same period, homicide rates decreased from 6.3 per 100,000 to 5.3. In fact, after years of rising gun production, the US homicide rate fell to a fifty-year low in 2014.

Total New Guns in US (Total = Manufactured in US + Imported - Exported) vs. US homicide rate (right axis, n per 100,000)

Many states with weak gun-control laws are also among the states with the lowest homicide rates. For instance, Vermont, New Hampshire, and Maine — all of which have few gun restrictions — report remarkably low homicide rates.

73-year-old Curtis Roys, was asleep when he heard a loud banging noise outside. He then discovered a young man on his back patio who, when confronted, pushed his way inside through the patio door and began to assault Roys with a blunt object. Reportedly, he then put Roys into a chokehold, causing him to lose consciousness.

Deputies said Roys' fiancée, 65-year-old Melody Lumpkin, pled several times for the man to stop assaulting him, but the man did not comply. She then retrieved a handgun from the bedroom and fired a warning shot,

When she noticed Roys was not moving, Lumpkin then reportedly fired another shot, striking the man in the head. When Roys regained consciousness, officials said they then called 911.

The suspect was later identified as Cleto Neri Solorzano, 19, of Fredericksburg.

The number of teens stabbed to death in London has reached an 11-year high, according to a report published by the BBC, with 23 teenagers being murdered on the streets of the capital since the start of this year.

Breitbart London previously reported that in 2017 and 2018 a total of 29,233 knife crimes were reported in the capital city, including 9,030 stabbings, averaging 40 knife crimes per day. Over two-thirds of the perpetrators were under the age of 25. Last year under the leadership of Sadiq Khan, London overtook New York City for murders for the first time in over 200 years.

Sixteen pupils and two parents waiting with them for their school bus were stabbed by a man wielding knives in Kawasaki near Tokyo on Tuesday morning, leaving a girl and a man dead, police and school officials said.

The 16 schoolgirls, students at Caritas Elementary School, a private Catholic school in the city, were attacked by the suspect, identified by police as 51-year-old Kawasaki resident Ryuichi Iwasaki, who was holding knives in both hands.

Iwasaki died in the hospital as a result of a self-inflicted stab wound to the neck, police said.

Communists, UN And The Liberals/Political Left Are The Ones Trying To Take Guns

[Chinese State Media 'Gun Ownership Out of Control in U.S.' .html - Shortcut](#)

China's state-run Global Times on Monday used the weekend's shootings to argue that gun ownership is "out of control" in the United States and mass shootings are "shocking in a U.S. allegedly governed by law."

That curious phrasing — criminals by definition do not obey laws, so their existence does not prove a nation is lawless — belied China's desire to use mass shootings as a way of slapping back at Americans who criticize Beijing for such horrors as the persecution of the Uyghur Muslims and the erosion of Hong Kong's autonomy. The authoritarian Chinese Communist Party (CCP) calls every nation with more freedom "lawless" to justify China's heavy censorship, politicized justice system, and ruthless suppression of dissent.

Left unmentioned is that China is no stranger to violent crime, despite all its praise for authoritarian power — it just puts considerable effort into burying crime reports to make itself appear more placid. China even has school massacres, the most recent of which occurred in September.

What is with the mainstream media's obsession with the AR-15 rifle?

In the aftermath of Sunday's shooting at the Pulse nightclub in Florida, Orlando Police Chief John Mina described the weapon suspect Omar Mateen used to kill 50 as an "AR-15 style rifle."

The rifle used by the Islamist terrorist in Orlando was instead a Sig Sauer MCX carbine, a modular, multi-caliber (able to swap to different calibers, including 5.56 NATO, 300 BLK, and 7.62×39) rifle system that sometimes utilizes STANAG magazines common to more than 60 different firearms, but otherwise has no major parts that interface with AR-15s in any way, shape or form.

A Closer Look At The Problems They Create To Convince Us That The N.W.O. Is The Answer

According to wikipedia there have been 439 wars in 65 years since the UN was created. Is that because the world suddenly became more violent all by itself since 1945? No. it is because the N.W.O. are using wars to achieve their goals and many times they use the UN to make those wars look like they are doing something good like saving a country from some evil dictator or terrorist group. In reality they are fighting against the people who are trying to stop the N.W.O. That is a big part of why we have had so many wars since the UN was created.

There has always been opposition to the N.W.O. so buying and owning the media to control what we hear in the news is very important. Much of the media today is owned by the N.W.O. One of the first things they did was buy up the media so they could continue their plans in secret. This is a quote from Thomas Jefferson about their control of the media from the book [The Synagogue Of Satan](#) by Andrew Carrington Hitchcock:

1807 President Thomas Jefferson (the third President of the United States from 1801 - 1809), provides one of the first honest insights into the dishonesty and corruptibility of the media when he states,

"Nothing can now be believed which is seen in a newspaper. Truth itself becomes suspicious by being put into that polluted vehicle. The real extent of this state of misinformation is known only to those who are in situations to confront facts within their knowledge with the lies of the day."

Lets look at an example from World War One of how the media is used to their advantage to make a country go to war. In this quote you will see not only how the media was used to convince a country to go to war but also how they use war to take over land that is not theirs. From the book [The Synagogue of Satan by Andrew Carrington Hitchcock](#):

1916, The middle of World War 1. Germany are winning the war as they are being financed by the Rothschilds' to a greater extent than France, Italy and England, simply because the Rothschilds', do not want to support the Tsar in Russia, and of course Russia was on the same side as France, Italy and England.

Then a significant event occurs. On December 12th, Germany, although they were winning the war and not one foreign soldier had set foot on their soil, offers armistice to Britain with no requirement of reparations. The Rothschilds' are anxious to make sure this is not accepted by the British as they have a few cards left up their sleeve in relation to what they initiated this war for.

So, whilst the British are considering Germany's offer, Rothschild agent Louis Brandeis sends a Zionist delegation from America to Britain to promise to bring America into the war on the side of the British, provided the British agree to give the land of Palestine to the Rothschilds'.

The Rothschilds' wanted Palestine to protect the great business interests they had in the East. They also desired their own state in that area along with their own military which they could use as an aggressor to any state that threatened those interests.

The British subsequently agree to the deal for Palestine and the Zionists in London contact their counterparts in America and inform them of this fact. Suddenly all the major newspapers in America that up to that point had been pro-German turn on Germany, running propaganda pieces to manipulate the American public against the Germans, such as: German soldiers are killing Red Cross Nurses; and, German soldiers are cutting off babies hands.

1917 As a result of Germany's offer of peace, the Rothschild war machine goes into total overdrive in America, spreading anti-German propaganda throughout the American media which leads to President Wilson under the instructions of the Jewish American Supreme Court Justice, Louis Dembitz Brandeis, reneging on his promise to the electorate and taking America into World War 1 on April 6th.

As per the Rothschild promise to the British, to take America into the war, they decide they want something in writing from the British to prove that they will uphold their side of the bargain. The British Foreign Secretary, Arthur James Balfour, a Jew, therefore drafts a letter which is commonly known as the, "Balfour Declaration," which is reprinted below.

Foreign Office November 2nd, 1917

Dear Lord Rothschild,

I have much pleasure in conveying to you, on behalf of His Majesty's Government, the following declaration of sympathy with Jewish Zionist aspirations which has been submitted to, and approved by, the Cabinet.

His Majesty's Government view with favour the establishment in Palestine of a national home for the Jewish people, and will use their best endeavours to facilitate the achievement of this object, it being clearly understood that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish communities in Palestine, or the rights and political status enjoyed by Jews in any other country. I should be grateful if you would bring this declaration to the knowledge of the Zionist Federation.

Now let's look at Operation Northwoods and Operation Gladio. Two examples from our time of how the N.W.O. creates problems so they can then give us their solutions that help them reach their goals. In Operation Northwoods they created the problem of a false attack to reach the goal of a military attack on Cuba and with operation Gladio they used the problem of terrorist attacks to increase the governments control over the civilian populations.

March 13, 1962 Operation Northwoods was a false flag that was designed to take America into war with Cuba. A false flag is a lie where a country pretends to be another country when it takes some kind of action. In this case the Joint Chiefs of Staff proposed a plan where they would pretend to be communist Cubans and attack their own base in Cuba, sink a boat with Cuban refugees and pretend to blow up an American plane with students on it to justify a military attack. The plan also included attacking the American base at Guantanamo using Cubans allied with America dressed as enemy Cubans. The plan was rejected by President Kennedy.

Operation Gladio was a huge operation in Europe under the control of NATO that did many things. One of the things it did was commit acts of terrorism to take more control of society through security legislation. This is one of the methods the N.W.O. uses to take total control of society. Here is a quote from someone that was involved from the book

[Nato's Secret Armies by Daniel Ganser, Page 7:](#)

Right-wing terrorist Vinciguerra, who like others with contacts to the Gladio branch of the Italian military secret service, had been killed for his political conviction, related: 'You had to attack civilians, the people, women, children, innocent people, unknown people far removed from any political game. The reason was quite simple. They were supposed to force these people, the Italian public, to turn to the State to ask for greater security. This is the political logic that lies behind all the massacres and the bombings which remain unpunished, because the State cannot convict itself or declare itself responsible for what happened.

The United States was involved in funding Gladio. A former CIA director admitted to it in an interview as reported by the Washington post:

<https://www.washingtonpost.com/archive/politics/1990/11/14/cia-organized-secret-army-in-western-europe/e0305101-97b9-4494-bc18-d89f42497d85/>

[CIA ORGANIZED SECRET ARMY IN WESTERN EUROPE](#)

By Clare Pedrick November 14, 1990

In a television interview on Italy's Channel 4, former CIA director William Colby confirmed the U.S. role in Italy's secret army and described how he was sent to Stockholm in 1951 to set up a similar network in Scandinavia. Colby, who headed the CIA from 1973 to 1976, also revealed that U.S. intelligence agencies channeled large sums to Italy's right-of-center Christian Democrats and other "anti-Communist" political parties during the Cold War era -- a connection that has long been alleged by Italy's left-wing parties. The money, said Colby, was used to ensure that Italy did not "fall into Communist hands."

Here are only three of many acts of terrorism committed during Operation Gladio from the book [Nato's Secret Armies](#) by Daniele Ganser,

page 253

1969 In Italy, the Piazza Fontana massacre in Milan kills 16 and injures and maims 80 and is blamed on the left. Thirty years later during a trial of right-wing extremists General Giandelio Maletti, former head of Italian counterintelligence, alleges that the massacre had been carried out by the Italian stay-behind army and right-wing terrorists on the orders of the US secret service CIA in order to discredit the Italian Communists.

1972 In Italy, a bomb explodes in a car near the village Peteano killing three Carabinieri. The terror, first blamed on the left, is later traced back to right-wing terrorist Vincenzo Vinciguerra and tends to the exposure of the Italian stay-behind code-named Gladio.

page 255

1984 In Italy, right-wing terrorist Vincenzo Vinciguerra in court reveals Operation Gladio and the involvement of NATO's stay-behind army in acts of terrorism in Italy designed to discredit the Communists. He is sentenced to life and imprisoned.

As you can see from operations Gladio and Northwoods, many of our world leaders are terrorists and they work together from different sides of wars or conflicts pretending to be enemies but it is all an act that they use to build their N.W.O.

Here is an example of what looks like three different sides of a dispute working together to create a Jewish state of Israel. There is more to the story of why the N.W.O. wants a Jewish state of Israel but for now we will just look at one of the steps they took in creating the state. It is another case of what is called 'problem, reaction, solution.' They create the problem, there is a reaction and they present their own solution which is what they wanted all the time. The Jewish terrorists attacked the Palestinians, the UN reacted by dividing the state and giving more than half to the Jews and the state of Israel was one step closer to being created.

From the book [The Synagogue Of Satan](#) by Andrew Carrington Hitchcock:

1947 The British who prior to World War 2 declared that there would be no more immigration of Jews to Palestine in order to protect the Palestinians from their acts of terror against both them and British soldiers, transfer control of Palestine to the United Nations.

The United Nations resolve to have Palestine partitioned into two states, one Jewish and one Arab, with Jerusalem to remain as an international zone to be enjoyed by all religious faiths. This transfer is scheduled to take place on May 15th, 1948. However, just to put into perspective who controls the United Nations (UN), please be aware that the UN had no right to give Arab property to anyone, as indeed even though the Jews owned only 6% of Palestine at that time, resolution 181 granted the Jews 57% of the land leaving the Arabs who at that time had 94% with only 43%.

Many of our world leaders are terrorists. Two Prime Ministers of Israel are terrorists and they murdered, robbed and raped men, women and children to further the plans of the N.W.O. Here is the historical record as reported in the book [The Synagogue Of Satan](#) by Andrew Carrington Hitchcock:

In the early hours of April 19th, 132 Jewish terrorists from the Irgun gang, led by future Israeli Prime Minister Menachem Begin, and the Stern gang, led by future Israeli Prime Minister Yitzhak Shamir, brutally massacre 200 men, women and children as they are sleeping peacefully in the Arab village of Deir Yassin. In an effort to prevent outside observers discovering the brutality of their war crimes, they try to burn some of the bodies, but when that proves unsatisfactory, they stuff some in a well to hide them from the Red Cross representatives who arrive on the scene the next day and would subsequently tell the world. Indeed reports from survivors can be found in the, "Report of the Criminal Investigation Division," a Palestine Government Document labelled, No. 179/110/17/GS dated April 13th, 15th, and 16th, 1948, in which British interrogating officer, Assistant Inspector General Richard Catling states,

"The recording of statements is hampered also by the hysterical state of the women, who often break down many times, whilst the statement is being recorded. There is, however, no doubt that many sexual atrocities were committed by the attacking Jews. Many young school girls were raped and later slaughtered. Old women were also molested. One story is current concerning a case in which a young girl was literally torn in two. Many infants were butchered and killed. I also saw one old woman who gave her age as 104, who had been severely beaten about the head with rifle butts. Women had bracelets torn from their arms and rings from their fingers, and parts of some women's ears were severed in order to remove ear-rings."

Carbon Dioxide (Co2) And Global Warming

It is easier to control a small amount of people than it is to control a large amount of people. There are many people who are part of the N.W.O. but there aren't enough of them to attack and kill ninety percent of the world's populations so they use us to kill each other by causing wars and they use some other very creative ways. Carbon is the base element for life. That is why we are called carbon based life forms. Carbon dioxide is part of the life cycle and without it plants and people will die.

The N.W.O. is lying to us about how carbon dioxide works and they tell us that we have to stop all of our progress or the world will end. If we stop farming and other energy industries like coal and oil a huge part of the worlds population will die from starvation.

Further in this study you will see that there is no shortage of oil and coal and they can burn clean without pollution with filters. However they lie tell us that there is not enough and what we do have will kill us if we use it. We know how to run our world but they have people in positions of power that you will believe because you are not a scientist and real scientists that tell the truth are censored or called conspiracy theorists or 'quacks'.

Just like everything else, they admit it or they are caught doing it and try to cover it up somehow. The N.W.O. is divided into many groups working together on different areas. One group is called the Club of Rome. This is the group that lies about global warming or climate change being caused by carbon dioxide (co2). First we will look at who the Club of Rome are and then their admission of what they are doing.

Who are the Club of Rome?

[From wikipedia:](#)

Founded in 1968 at Accademia dei Lincei in Rome, Italy, the Club of Rome consists of current and former heads of state, UN bureaucrats, high-level politicians and government officials, diplomats, scientists, economists, and business leaders from around the globe.

[From The Conspirators Heirarchy: The Committee Of 300 by Dr. John Coleman.](#)

It came as a revelation to them that the Club of Rome and its financiers under the title of the German Marshall Fund were two highly-organized conspiratorial bodies operating under cover of the North Atlantic Treaty Organization (NATO) and that the majority of Club of Rome executives were drawn from NATO.

What the Club of Rome are doing?

They admit to creating the lie that co2 is controlling the weather and is dangerous. Co2 is part of the lifecycle of this planet. Increasing it will not harm the planet.

[The First Global Revolution A Report By The Council Of The Club Of Rome by Alexander King and Bertrand Schneider. Page 75.](#)

In searching for a common enemy against whom we can unite, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like, would fit the bill. In their totality and their interactions these phenomena do constitute a common threat which must be confronted by everyone together. But in designating these dangers as the enemy, we fall into the trap, which we have already warned readers about, namely mistaking symptoms for causes. All these dangers are caused by human intervention in natural processes, and it is only through changed attitudes and behaviour that they can be overcome. The real enemy then is humanity itself.

What they are saying is the human race is the enemy of itself and of the earth and the human race must be destroyed. This is how they make us kill ourselves so they have only a small population left to control.

Human made Carbon dioxide does not control the weather on earth. Cosmic rays and solar activity control the weather on earth. The following quote from a study by Dr. Lindzen shows how an increase in co2 does not account for even 20% of the changes in climate caused by natural cloud cover.

<https://notrickszone.com/2020/06/15/mits-dr-lindzen-pokes-fun-at-the-naive-well-funded-scientific-reasoning-that-1-factor-co2-controls-climate/>

MIT's Dr. Lindzen Pokes Fun At The 'Naïve', Well-Funded 'Scientific Reasoning' That 1 Factor – CO2 – Controls Climate

Doubling the atmospheric CO₂ concentration from 280 ppm to 560 ppm results in just a 1-2% perturbation to the Earth's 240 W/m² energy budget. This doubled-CO₂ effect has less than 1/5th of the impact that the net cloud effect has. And yet we are asked to accept the "implausible" claim that change in one variable, CO₂, is predominately responsible for altering global temperatures.

Carbon dioxide (CO₂) has never controlled temperature in the history of earth and it never will. CO₂ is a greenhouse gas that traps the sun's rays and causes the temperature to rise. There are several greenhouse gases and they are all necessary for our survival. CO₂ is point zero five four percent (0.054) of the earth's atmosphere and the amount contributed by all human activities is a small part of that. There are other huge sources of CO₂ like volcanoes, animals, rotting vegetation and the ocean by far is the biggest emitter of CO₂. These other sources easily outnumber the human contribution and cannot be controlled but there is nothing to worry about because CO₂ does not control earth's temperature. There have been times in earth's history when there were three times and ten times as much CO₂ in the atmosphere and the world didn't burn up in a ball of flames. Ninety five percent of greenhouse gas is water vapor and gases other than CO₂ that are beyond our control and we need them or else we could not survive on earth because we would freeze to death.

The truth is that on average carbon dioxide rises 800 years after the temperature rises according to the ice core samples. The N.W.O. chooses to lie about CO₂ causing global warming because they know if they stop our industries they can more easily take over the world. When there is increased sun activity from sun spots the cosmic rays are blocked and less clouds form and it gets hotter. When there are less sun spots cosmic rays reach earth and cause clouds to form and it gets cooler. That's how it works. CO₂ is irrelevant in controlling our weather. CO₂ only forms a small part of the greenhouse effect that happens after the weather changes.

The Club of Rome presents the idea of mankind as the enemy of the earth because humans are supposedly interfering with natural processes of the earth. The UN pushes that lie through something called agenda 21 and sustainable development. What the UN is saying is that anything that they do not approve of is not sustainable and will lead to the end of the earth. This is one of their methods of control over the world population. They admit that they are using sustainable development to control us but they make it sound as if they are trying to save us.

A World Without The N.W.O.

You're probably surprised to hear that the human race can live in peace and prosperity considering all the horror stories you've heard in the news, your schools, in television programs and movies and even from the government. Let's start by asking: what do we need? To answer, here is a short list of the broad areas of importance.

- Healthcare
- A Place To Live
- Security
- Resources
- Education
- Transportation

The N.W.O. Is Destroying Our Health On Purpose

Aspartame

Just like almost all the other aspects of our lives the N.W.O. is in control of our health care systems. There are so many other ways they kill us with our own health care system alone. They even use our food and water to kill us. Here are two examples. One is about aspartame and the other is about marijuana (hemp).

<https://www.arizonaadvancedmedicine.com/articles/2013/june/aspartame-history-of-getting-fda-approval/>

[Aspartame - History of Getting FDA Approval](#)

By Arizona Center for Advanced Medicine

Aspartame has been controversial since day one. Searle, the manufacturer, had failed to win FDA approval for 16 years and was under investigation for performing fraudulent studies. Aspartame was suddenly approved in 1981 when Donald Rumsfeld, former CEO of Searle and new member of President Ronald Reagan's transition team, appointed a new FDA commissioner.

The controversy never died down. Today for example, the State of New Mexico is attempting to ban aspartame. It is banned in Japan and officially discouraged in China. But in the USA, the FDA and lobbying groups like the Calorie Council continue to proclaim its safety.

A 1996 review of past research conducted on aspartame found that every industry-funded study had said the sweetener was safe to consume. However 92 percent of independent studies claim one or more problems exist with its use, the British newspaper the Guardian reported.

Cancer Cure

Rick Simpson has cured many people of cancer using hemp oil (marijuana oil). In Nova Scotia, Canada, Rick Simpson helped someone from Maccan Royal Canadian Legion 134 cure them self of cancer and the people at the Legion wanted to make it known to help others. They contacted the Provincial Command for the Legion and told them about the cure and the command shut down the legion.

The provincial command ignored the fact that hemp oil could cure cancer and instead said that it was an illegal drug so the didn't want anything to do with it.

In 2004, Rick Simpson contacted the Canadian Cancer Society about hemp oil curing cancer. This was their response...

'The Society does not endorse or support medical products or dietary supplements...thanks for the information. We wish you luck in your work.'
- Canadian Cancer Society.

In 2005 the Royal Canadian Mounted Police raided Rick Simpson and took his plants away but they did not charge him at that time. Eventually Rick was charged for trafficking drugs.

At his trial Rick had four dozen statements from people who used hemp oil to cure cancer and other conditions, ten patients and six doctors were ready to testify but were not allowed to testify. Rick Simpson was convicted of drug trafficking but he gave all the oil away for free so he wasn't trafficking. Chemo therapy kills more people than it saves.

A Place To Live

Everyone needs a place to live. Owning or renting space are the two most common ways people use to get themselves a home to live in. The most ideal situation would be for everyone to own their own property and house so that there is less chance of a person losing their home. So what are the problems stopping us from keeping our homes? If you're renting you always need to pay or you'll have to move which is a problem. Having the option to rent is very good for society but it is better to own your home so that you don't have to pay anymore to keep it which gives you more security. Housing should be and can be permanent and affordable. This will lead to a stable and peaceful society. Even if everyone owned their own home we would still have places to rent because people would be traveling and using temporary housing. Life would be even better. But what are the problems that stop everyone from owning their own home and keeping it?

- The government will take your home if you don't pay your taxes.
- Not having enough money to buy a home.
- Banks are extremely unreasonable when negotiating a mortgage and will foreclose and take your home.

Money

Not having enough money is obviously the problem so how can we fix that problem. The money problems we have are created by the N.W.O. and they admit it. Look at what one of them said about America being able to control their own money supply:

“If that mischievous financial policy which had its origin in the North American Republic should become indurated down to a fixture, then that government will furnish its own money without cost. It will pay off its debts and be without a debt. It will have all the money necessary to carry on its commerce. It will become prosperous beyond precedent in the history of the civilized governments of the world. The brains and wealth of all countries will go to North America. That government must be destroyed or it will destroy every monarchy on the globe!”

~ The Times of London newspaper, opinion-editorial commentary, 1865.

It is unclear from this source who the author was but clearly it was someone who was in favor of the N.W.O. taking over the world and ruining your life. Imagine if every country in the world could become prosperous beyond anything seen before in history. The world would be so peaceful and happy. So what was it that America did that was so great to cause such financial freedom? It's simple. They did not borrow money from a private bank at a high rate of compounded interest. America printed their own money at that time.

the Gilded Age (1870 - 1900) is considered to be the time of the greatest prosperity in America and it is a time where there was no central bank or income tax. The government used the treasury for its money supply.

As you know people who work in the government need to get paid. The government writes a budget for the year so they know how much money they need to run the country. Then they print that money and pay the government employees and any other costs in the budget. That's it. You might ask now why are you paying taxes to pay for the national debt? You don't have to but if you did it would be very little. In fact most of the taxes you pay today including property taxes would disappear if the N.W.O. was gone because they would be unnecessary. Without property taxes you could pay for your house and never lose it because no one would have a reason to take it away.

The important thing to remember is that you let your government print only as much money as it needs to run the country and do not use fractional reserve banking. ALL NEW MONEY MUST COME FROM THE NATIONAL BANK. THIS INCLUDES PAYING GOVERNMENT EMPLOYEES AND LOANS. Gold has nothing to do with it. People used gold and other precious stones and metals in the past for money because they were difficult to counterfeit and they would not rust. We don't need to do that anymore because we can create money that is durable and difficult to counterfeit. Only the cost of running the country, the government and loans determines how much money is printed each year. Loans can also come from money that is already in existence. The best part is

that without the N.W.O. the cost of running your country will be far less than it is today because the N.W.O. are using every trick they can to inflate the budget so you have to borrow more money from them and that keeps you under their control. Your government knows this and they are lying to you because many people from governments all over the world are part of the N.W.O. or under their control in some way even if they don't know it.

Once your government starts printing its own money and your taxes go down, you will have more money to buy a home with. But it gets better. Business taxes will also go down and that means prices will go down so you'll save again. And as other taxes disappear because running the country is so much cheaper you won't have to pay sales taxes and you save even more. Don't forget that many of the taxes you pay are because of problems the N.W.O. created so with the N.W.O. gone those problems will be gone.

What about the banks and their unreasonable mortgage terms? The N.W.O. is in control of the banking system so of course they will be unreasonable. With the N.W.O. gone and with citizens becoming more prosperous, the banks will change their ways. Especially when people don't even need to borrow so much anymore. The banks must also stop using fractional reserve banking which is fraud. Fractional reserve means that the banks can lend out up to ninety percent more than they own. The N.W.O. wants banks to do this so they can make fraudulent loans to people, businesses and institutions who they know are high risk not to pay the money back which leads to a financial crisis that makes you loose money because the government will bail out the banks by borrowing more money from the N.W.O. central banks. Then you pay for that bail out with your tax money. Loans are good but they must be made properly.

Let's take a look at some of the people involved in controlling the world money supply. Their control goes back many generations and involves several families but we will look at just one of the more famous families known for their control of the banking systems of the world, The Rothschilds. Let's take a look at the attitude of this family from the past. A quote from one of the oldest sons in the family shows that they care only about money and power so they can help create the N.W.O. This is from the book [The Synagogue Of Satan](#) by Andrew Carrington Hitchcock:

in the year 1811 The charter for the Rothschilds' Bank of the United States runs out and Congress votes against its renewal. Nathan Mayer Rothschild is not amused and he states,

"Either the application for renewal of the charter is granted, or the United States will find itself involved in a most disastrous war."

However the United States stands firm and the charter is not renewed, which causes Nathan Mayer Rothschild to issue another threat, in which he states,

"Teach those impudent Americans a lesson. Bring them back to colonial status."

Backed by Rothschild money, and Nathan Mayer Rothschild's orders, the British declare war on the United States. The Rothschilds' plan is to cause the United States to build up such a debt in fighting this war that they have no option but to surrender to the British and allow the charter for the Rothschild owned First Bank of the United States to be renewed. However, as the British are still busy fighting Napoleon, they are unable to mount much of an assault and the war ends in 1814 with America undefeated.

As you can see they don't care how many people suffer and die. Their descendants along with the other banking families that are part of the N.W.O. own the Federal Reserve Bank and the world banks. If you think that they don't have the power to take a country to war just because they own banks you are wrong. When you are in control of a nation's money supply you can pay people to do whatever you want and if they refuse you can cause a financial crisis. Just by paying the people who are willing to help you and not paying the people who don't want to help you, it is possible to make anything happen. And when the people you are paying are in control of a country you can start wars. Here is another quote where one of them even admits it.

- From the book [The Synagogue Of Satan](#) by Andrew Carrington Hitchcock 1815, this is the year Nathan Mayer Rothschild makes his famous statement, "I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets. The man who controls Britain's money supply controls the British Empire, and I control the British money supply."

Available Resources And Overpopulation

There is enough room for everyone to own a home. The world is not overpopulated. There are a lot of people on earth but there is still far more free space than occupied space. Even as we grow there will be enough space for farming food, recreation, forests and people. The planet is two thirds water so there is enough water. We can even grow an incredible amount of food and collect huge amounts of water just in our cities. There is no need for panic and hysteria. Acting in fear will only cause you to be controlled by the N.W.O. because they are creating the fear and hysteria that you react to.

There Is No Over Population

How much space do we need to live? To be able to see what it looks like we can use an example of a well known size of land. Look at Alaska on a map. We can fit the entire population of earth there. This is just an example of size to give you a visual idea compared to the total size of the earth. we could fit the entire world population in that same area if only two people lived in a house that had only one floor and no basement with a backyard if there were ten houses per acre and there would still be space left over. So how is there not enough space on the planet? Over population is a lie told to us by the N.W.O.

Energy In America

We are told by the UN and governments that we are running out of oil and that the world is overheating because of human activity. First let's look at oil. In the seventies there was an "energy crisis". In response, the Trans Alaskan Pipeline System was built to supply oil to the lower American states from Alaska.

During the building of the pipeline an oil field was discovered in Alaska at Gull Island. In that oil field alone there is enough oil to supply America for two hundred years plus incredible amounts of natural gas. The two hundred years even includes the projected rate of increase in consumption. There is also enough natural gas in Alaska to last 200 years which is put back into the ground at the rate of one billion cubic feet per day by using forty eight engines of the type used on 747 jet aircraft. Twenty four hours after the discovery of that oil field the discovery was classified and never reported to the world. The only reason we know about it is because Lindsay Williams who was a Chaplain at the oil field wrote a book about it titled The Energy Non Crisis. Since that time another pool of oil has been found on the north slope of Alaska as big as the one found at Gull Island. Alaska has as much oil as in Saudi Arabia. America is energy independent and fuel should be very cheap for us to buy.

Considering the abundant coal supply and other oil fields in America and Alaska that are not kept secret, why are energy prices so high? Why are we fighting and dying over oil in other countries as we did in the Iraq Kuwait war? It is because those events keep us under the control of the N.W.O. and it moves them closer to their final goal. Energy prices are high and they cause us to suffer and even die but it doesn't have to be that way as you now know. Think of the prosperity and peace we could have on earth with abundant cheap energy. We have technology that allows us to burn coal that is clean. We have safe and clean nuclear energy available that is not being used but the dangerous nuclear energy is being used. But it's not being used because that would stop the N.W.O. from being built.

What About The Rest Of The World? Do They Have Energy?

Every region of earth has its own abundant energy supply and we don't have to fight each other for it. Here are some of the known supplies of oil with only some mention of coal. And this is just oil. It doesn't include all the coal and clean nuclear energy and solar, water and wind power.

[Enough oil for decades with new exploration tech BP says E&T Magazine.html](#)

Thanks to investment into supercomputers, robotics and the use of chemicals to extract the maximum from available reservoirs, the accessible oil and gas reserves will almost double by 2050.

“Energy resources are plentiful. Concerns over running out of oil and gas have disappeared,” said David Eyton, BP Group Head of Technology at the launch of BP’s inaugural Technology Outlook.

“We are probably nearing the point where potential from additional recovery from discovered reservoirs exceeds the potential for exploration.”

With the use of the innovative technologies, available fossil fuel resources could increase from the current 2.9 trillion barrels of oil equivalent to 4.8 trillion by 2050, which is almost twice as much as the projected global demand.

Further advances in exploration and technology could help the resources soar up to 7.5 trillion barrels of oil or equivalent.

https://en.wikipedia.org/wiki/Petroleum_industry_in_Russia

The petroleum industry in Russia is one of the largest in the world. Russia has the largest reserves and is the largest exporter of natural gas. It has the second largest coal reserves, the eighth largest oil reserves, and is one of the largest producers of oil. It is the third largest energy user.

Why We'll Never Run Out of Oil Discover Magazine

- *beneath the Caspian Sea in Kazakhstan. That region could harbor a staggering 200 billion barrels*
- *The Gulf of Mexico could produce a total of 15 billion barrels, the coast of Brazil 30 billion, and the coast of Angola and elsewhere along West Africa another 30 billion*
- *200 billion barrels that Saudi Arabia holds in its oil fields*
- *tar sands of Alberta, where an estimated 300 billion barrels of oil*
- *Venezuelans are beginning to excavate the solid tarry deposits of the Orinoco sludge belt, which contains as much as 1 trillion barrels of oil*

Oil Is Renewable Crude Oil Can Be Made From Vegetation

Most oil does not come from fossils. Fossil fuel is a name that is designed to mislead you into believing that oil comes from fossils and will eventually run out. If some oil comes from fossil bones of dead animals it doesn't change the situation for the worse. We know that vegetation at high temperatures and high pressure can create crude oil and there are companies using algae to make oil in one hour from start to finish. There is absolutely no energy crisis and there never will be but will the N.W.O. try to stop us by claiming that carbon dioxide is going to burn up the planet?

Food Supply For The Millions Of People Starving Around The World

Here is an article that shows how Russians produce food for themselves. It shows the power of producing your own food. Add this to farming and there is absolutely no problem at all for food. And water? The planet is covered in it and we can easily take out the salt and clean it if we want to.

<http://reclaimgrowsustain.com/content/russians-proving-small-scale-organic-gardening-can-feed-world>

Russians Proving That Small-Scale, Organic Gardening Can Feed the World

When it's suggested that our food system be comprised of millions of small, organic gardens, there's almost always someone who says that it isn't realistic. And they'll quip something along the lines of, "There's no way you could feed the world's growing population with just gardens, let alone organically." Really? Has anybody told Russia this?

On a total of approximately 8 million hectares (20 million acres) of land, 16.5 million Russian families grow food in small-scale, organic gardens on their Dachas (a secondary home, often in the extra urban areas). Because growing your own food happens to be a long-lived tradition in Russia, even among the wealthy.

Based on the 1999 "Private Household Farming in Russia" Gosmkostat (State Committee for Statistics) statistics, these Dacha families produced:

- 38% of Russia's total agricultural output
- 41% of the livestock
- 82% of the honey
- 79% of the sold cattle
- 65% of the sold sheep and goats
- 59% of the milk
- 31% of the sold poultry
- 28% of the eggs
- 91% of the potatoes
- 76% of the vegetables
- 79% of the fruits

If Russian families can manage such production in their region's very short growing season (approx. 110 days), imagine the output most parts of the world could manage by comparison. Unfortunately in just the US alone, lawns take up more than twice the amount of land Russia's gardens do (est. 40-45 million acres).
